Garden Week, April 2-7

National garden week as sponsored by the national federation of women's clubs has been set for Oregon April 2 to 7. The movement is endorsed by President Harding, dates to be arranged by the several states. The Oregon date as arranged by Paul V. Maris, director of college extension and Mrs. Ida B. Callahan, president State Federation of Women's clubs, is two weeks ahead of the national date because of earlier spring. County and home demonstration agents and boys and girls garden clubs will cooperate with local communities wherever the women's clubs call public meetings. The extension bulletin on vegetable gardening in the home, prepared by A. G. Bouquet, head of vegetable gardening at the college, will be republished in larger editions, the first having been exhausted in less than a month of publication.

The Man Who Signs Must Make Good

RESPONSIBLE man puts his name to a piece of paper and it becomes a check—the equivalent of money.

He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money.

He writes a letter and it becomes a binding contract.

The adding of the name makes these things solemn and legal obligations.

The man who signs is responsible.

Just so with an advertisement—the moment a man signs his name to it he has made a pledge to the public.

He is bound by his word as much as if he signed a check or a note. He must do what he promised on the terms he promised.

If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums.

It is safer to buy advertised articles than nondescript ones. It is safer to deal with merchants who advertise than with those who do not.

An advertisement is a signed pledge of good faith to the public.

See the merchants and manufacturers who welcome the chance to back their goods and products with their names.

On a busy Los Angeles street corner a checker stood and asked 150 passing motorists "Which gasoline do you use?" 63 answered "Red Crown," as against 18 for the next highest brand—a lead of 250%.

Because "Red Crown" is an all-refined gasoline every drop of which vaporizes rapidly and uniformly in the carburetor, and is completely consumed in the cylinders, giving quick starting, smooth acceleration and maximum mileage, "Red Crown" is the popular motor fuel everywhere.

Flowers That Bloom In the Spring

—bespeak the law of life—bringing joy in their annual bloom. So it is in the law of Thrift. Plant your dollars in the soil of savings and watch them grow—annually blossoming forth in 4 per cent interest.

The same dollars planted in the soil of A-1 investment (not speculation) bring forth bigger returns—an occasion for a greater sense of joy—and satisfaction.

Sow, then reap is the inevitable law. It is true in every phase of life—particularly in the standard of exchange—which in this day and age is the American dollar.
