THOMAS L. DORMAN
Was born in Sigourney, Iowa, April 3, 1853. He was united in marriage in 1871 to Hannah Lewis of Dallas, Iowa, who passed away Feb. 18, 1893. To this union two daughters were born.

He came to the Willamette valley and located at Turner, later moving to Eastern Oregon and locating that part of excellent country which later became Morrow county.

He was married the second time in 1900 to Lonize D. Peck of Lexington. In 1921 he moved to Portland, Ore., where he has since resided.

He is survived by his widow and two daughters, by M. Nolan of Ione and Nina E. Biddle of Heppner, besides six grandchildren and two great grandchildren. Early in life he became a member of the Christian church and took an active part in the church work. He was a charter member of the Lexington Church in the Heppner community. The Lexington church was organized in January, 1915 and Mr. Dorman was instrumental to the church building and parsonage, thereby making it possible for the church to be fully established in the Lexington community.

He joined with two other leading members of the Lexington church in the purchase of the church building and parsonage, thereby making it possible for the church to be fully established in the Lexington community.

A pioneer, he endured many of the hardships of the early settlers of this section, but finally triumphed over them all, and has passed to a well earned rest. Funeral services were held from the Christian church at Ione on Thursday, April 5, E. A. Palmer, pastor of the Lexington church, officiating and a very large concourse of friends and neighbors attending.

NO POSITIVE PROOF HOG CHOLERA HERE

By F. E. PRICE, County Agent.
Rumors have been going about in some parts of the county that hogs are dying from hog cholera. One of these cases was investigated by the County Agent but no positive proof of hog cholera could be found. The hogs might have had hog cholera but the case was not reported soon enough to hold a post mortem and decide whether or not the hog-died of hog cholera. Every farmer of Morrow County is certainly interested in keeping down the losses from hog cholera to a minimum. According to Government statistics the losses from hog cholera in Oregon each year is between four and nine thousand hogs. Hog cholera is the most furious disease of swine known, anyone knowing of cases that give indications of being hog cholera should report them promptly to the County Agent. This will enable control measures to be adopted at once if the disease is present. The Bureau of Animal Industry has made a study of the disease and finally developed an anti-hog cholera serum which is the only known reliable preventative agent. For treatment according to this simultaneous inoculation method or the double treatment method, as it is often called, hogs can be permanently immune from the disease. Fred McMurray, H. G. Rankin, and J. P. Perry have had their hogs vaccinated according to this treatment last week. No hogs have been lost on any of these ranches but it was thought that there might be some hog cholera in the vicinity as there has been some losses here. There are several cases of hog cholera in Wasco county at the present time according to Mr. Derflinger of the State Veterinary office. No cases are known in Morrow county. Let us all keep on the lookout and keep it out of Morrow county.

Boardman May Have New Cheese Factory

Prospects are flattering for a new cheese factory in Boardman. Jacob Marty of Jackson, who is a wholesale cheesedistributor of Portland, was in Boardman last Friday and went over the project to interview the local dairymen and on Saturday met with the ranchers to put before them the proposition of starting a cheese factory here. If the milk from 75 or 80 cows is assured Mr. Marty will establish the factory.

C. G. Blayden tells us he has signed up 50 for sure and has 80 more tentatively assured. If the ranchers are confident the deal will go through.

Portland prices for butterfat will be paid and five cents additional for skimmed milk. A charge of 15 cents will be made for collecting milk. An option has been taken on the Harry Murchie building.

Mr. Marty agrees to install a churn if the factory is started so enough butter may be made to supply local demand.

The petition was sent to Portland Wednesday—Boardman Mirror.

Certified Seed Potatoes Brought From Weston

As per announcement published in these columns last week, a truck load of certified Netted Gem seed potatoes were brought to Heppner the last of the week from the famous potato section at Weston.

Sixteen sacks of the potatoes were spoken for on arrival, and they will go rapidly, to persons interested in getting pure seed that is properly certified, should be getting their orders into the office of the County Agent at Heppner just as promptly as possible.

Clean-up week has been a success in Heppner, and from the great many loads of dirt and rubbish being hauled off to the dump grounds, one would think that a part of the town was being moved hence. Back yards and alleyways are presenting a much cleaner and better appearance as a result.

C. Gurdane is on a visit to his brother, Tom, in Pendleton this week.

SNOW AT CONDON PREVENTS SUNDAY'S GAME

On account of the ball diamond at Condon being covered on Saturday evening with about four inches of snow, the game of ball to be played there on Sunday between Condon and Heppner teams, was called off over the phone from the Condon and late Saturday evening.

Heppner ball fans, who had planned on going to the Gilliam county capitol to back up the locals, were compensated in a measure by taking in the game at Ione between Boardman and Ione and were rewarded by one of the best games played on that diamond in many a month. The score stood 1-4 in favor of Ione, and the Egg City boys were given another exhibition of the splendid game the Boardman team is capable of putting up this season. This was the second scramble between the two teams, Boardman getting the first on their home diamond the Sunday previous.

At Boardman on Wednesday afternoon, wind did have with one wall of the new Latourell garage in course of construction there. A gust of wind whipped through the building, just ready for the roof, and the entire hollow tile wall on one side was blown down, causing considerable damage that the contractor will have to make good.

GUN CLUB BANQUET

The banquet tendered the Heppner Gun Club by the Ione club at the Hotel Ione last Saturday night was not the lone feast it was intended to be. In fact it was a very one-sided affair. Though mine host Colvin had prepared a repeat fit for a king and under which the tables groaned, nary a Heppner came to stretch his legs 'neath the festive board. We have heard of no reason for the action of the Heppner sports—Ione Independent.
