

Local Happenings

Everything indicates a prosperous year for the farmers and stockmen in the Lone Rock country this year, according to Roy Robinson, who was transacting business in this city Monday. Mr. Robinson states that lambing has been accomplished under very favorable conditions, and that the wheat all through the south and west parts of the county looks fine.

C. C. Patterson enjoyed a nice visit on Friday afternoon with the officials at the court house, and other friends who dropped in to chat with him. Judge Campbell took Mr. Patterson up to the court house in his car, and he had a pleasant few hours in talking over affairs of the county with which he had been familiar for so many years.

Ira Lewis and E. S. Duran were in town Saturday forenoon, looking after business affairs. These gentlemen both state that crop conditions could not be better for the time of year in the greater portion of the Lexington wheat belt. Soaking rains have been abundant insurance that the yield will be a bumper one.

The Music Shop, recently opened by Irving Mather in the store room formerly occupied by Miss Smith, was divided by a partition in the middle, and part of the building is to be occupied by Harve Young as a second hand store. He is getting things shaped up so that he can open for business soon.

Hallick Stange, who farms near Ione, was in Heppner Saturday. He is quite well pleased over his crop outlook, but states that he suffered from winter freezing and his grain is spotted. The snow was blown off in spots and this is where the grain was killed to some extent by the cold snap.

Ralph Akers and family came up from Ione on Friday evening to attend the services at the Christian church. Mr. Akers feels that his part of Morrow county will certainly have an abundant crop this season—this is bound to be the case if present prospects hold good until harvest time.

S. R. Woods, forest ranger of the Gurdane district, came over from Pendleton Saturday and was occupied Monday morning in distributing advertising for Fire Prevention week, April 22-28. He expects to make the rounds of the snow stakes of his district the end of this week.

Dr. C. C. Chick and son Charles arrived home from Portland on Thursday evening. Dr. Chick was called hurriedly to wait upon Mrs. Geo. E. White of Lexington, who was operated on Friday morning at the Moore hospital for a serious case of appendicitis.

Mr. and Mrs. Vawter Crawford departed by stage on Sunday evening, their destination being Portland and Eugene. They were called to the latter city to look after some business regarding an estate in which Mrs. Crawford has an interest.

S. E. Notson and son Charles left by stage Tuesday afternoon for Arlington, where they took an evening train into Portland. Besides attending to business matters Mr. Notson took Charles to have his eyes examined by a specialist.

Mr. and Mrs. Luther Huston departed Sunday morning for Portland, where they went to seek medical aid for Mr. Huston who has been ailing for many months with diabetes. They expect to be absent for several weeks.

Mrs. W. C. Cason departed for Ione Friday evening where she will spend a short time visiting relatives and friends before going to Portland to spend the summer at the home of her daughter, Mrs. J. F. Vaughn.

A. Buckley, superintendent of the Oregon-Washington Railroad and Navigation company, came up from Portland in his special car on Friday, and spent Friday evening here in the interests of his office.

Claud Huston, leading farmer of Eight Mile, spent several hours in this city Friday, looking after mat-

ters of business. All Eight Mile farmers are feeling jubilant over the good crop prospects.

County Assessor J. J. Wells was in Pendleton Saturday to confer with the Umatilla assessor's office on means of avoiding double taxation on livestock which winter in one county and graze in another.

Jas. Luper was in from his Heppner Flat farm on Saturday, accompanied by his daughter, Mrs. Letha King, who has been visiting here during the week from her home at Portland.

Harry Duncan, accompanied by two young ladies, made the trip to Walla Walla Sunday in his new Jewett roadster. He reports a most enjoyable ride.

Wilbur Clure, representing the Peets soap company, was engaged in peddling samples of soap among Heppner housewives Monday.

Judge Gilbert W. Phelps who has been ill for the past two weeks, is improving. He is still confined to his home—Pendleton E. O.

Earl Warner was up from Lexington on Saturday, bringing with him his young son for an operation for removal of tonsils.

Ben Anderson returned to his home at Hood River Tuesday after spending a few weeks in Heppner on business.

Earl Hallock came up from Portland last Thursday evening, and is helping out at the Jeff Jones ranch.

David Hynd, sheepman of Sand Hollow, and George Aiken of Heppner were Pendleton visitors Saturday.

Lawrence Palmer, extensive wheat grower of Lexington, was a visitor in the county seat on Saturday.

Ellis R. Minor was a business visitor in Heppner Monday from his farm home near Ione.

Last—Pair of rimless eye-glasses, in black case. Reward. Finder return to this office. It.

Lawrence Redding, wheatraiser of Eight Mile, was a visitor in this city on Friday.

NOTICE OF SALE OF ANIMALS.
Notice is hereby given that, pursuant to the statutes of the State of Oregon, the undersigned will sell at public auction for pasture and feed bill, on Saturday, the 12th day of May, 1923, at 10 o'clock a. m., the following described animals, to-wit: Two five-year-old steers, branded X on right side; unless said animals are redeemed by owner before said date. Sale will be held at the ranch of the undersigned, 16 miles southwest of Hardman, Oregon.

Main Street -- Heppner, Oregon

In San Diego it's

RED CROWN GASOLINE

by 220%

On a busy street corner in San Diego, a checker stood and asked the first hundred motorists that passed: "What gasoline do you use, and why?" 52 of them answered "Red Crown," as against 16 for the brand showing the next highest preference—a lead of 220%.

Not only in San Diego, but throughout the Pacific Coast field, Red Crown is the popular gasoline, because it vaporizes completely, burns cleanly, and is uniform always and everywhere.

FARM POINTERS

(Farm Notes from O. A. C. Experiment Station.)
In the usual ration of the dairy cow clover and alfalfa hay is worth more than twice that of timothy hay. Legumes are not only the best milk producers among the hays, but are very valuable as soil builders.

When fed liberally a good dairy cow can use half her feed for milk production. When fed a three-fourths ration she can use only one-third of her feed for producing milk, and when fed a half ration she needs all her feed to maintain her body.

The outlook for the sheep industry especially wool, from an economic point, appears favorable for a year or two at least. The number of sheep on farms, January 1, 1923, was only 37 million as compared to 55 million for the 10-year average. Wool consumption is more than twice as great as production. In 1922 more than 300 million pounds were imported—also in 1921.

How many potatoes should we plant this spring? The past year of heavy production and low prices has been particularly hard on the western growers who are a long distance from markets. Usually a low price is followed by about two years of decreased production. Seed is cheap. There is little evidence of sudden wealth acquired by farmers who "plunge." Those who make money are the ones who play the game steadily. The only certain winners this spring, however, will be those who produce efficiently—that is at a low cost per bushel.

"It's going to look Wonderful, I know!"

IS THE FLOOR SCRATCHED, are the stair-treads worn? Have small careless feet scuffed the baseboard? Take a little time and freshen it all up now! You'll enjoy its improved appearance, ever so much! And isn't there a fascination in wielding a paint brush!

For kitchen, bathroom and closet floors, use Fuller's Rubber Cement Floor Paint. It comes in 14 shades and covers solidly in one coat. Fuller Floor Wax lends a high polish to hardwood floors. Natural wood floors are protected by a coating—clear, transparent and durable—of "15" for Floors' Varnish.

Whatever your painting need, W. P. Fuller & Co. makes a paint for the purpose. An agent or dealer near you has Fuller Products. See him today. Write, too, for our "Home Service" booklet. Our Service Department will gladly give you advice.

SAFETY & SERVICE

An Anchor to Windward

SAILORS know the wisdom of having an anchor to windward. That precaution has prevented many a disaster.

To have a money surplus—capital in reserve—is simply throwing an anchor to windward. It will prevent your drifting on to the rocks of dependence and want.

The time to build up a reserve, a safeguard for future, is now when you are strong and able to work and sacrifice. You don't know about the future, but you do know that now, today, you are able to earn and save. Make the most of your present opportunity and prepare yourself for greater ones later on.
