

CECIL NEWS ITEMS

Cecil is coming into the first rank of Oregon as fast as the can. Several of the creek ranches are breaking out in all sorts of products. We saw a lot of sheep, cattle, hogs. High-class Jersey and Holstein stock are being shipped to be sent nothing of the kind of fatness also to be seen on several ranches. We notice George Hartman's strawberry patch is beginning to look fine and we presume that is one reason why Miss Mildred Beckman had such a ferocious building shipped in from the East.

Messrs. Earl Weatherford and Charles Porter of Cook Creek called on their old friend Mr. Peter Hunsicker at Cecil on Saturday before going to investigate oil springs which are supposed to have made their appearance near Wells Springs about fourteen miles east of Cecil.

Tuesday, May 8, at Cecil the heat registered 82 degrees in the shade. By midnight a heavy thunder storm and a good fall of rain cooled things down and farmers are looking more cheerful at their crop prospects.

Methusaleh Says:
 **CONSIDER** the squirrel, Oh my son, and be wise. For when the sun shines, then doth he gather the fruit of the nut trees. But when the trees cease to bear fruit and snow covers the ground, then doth the squirrel feast on the nuts he hath stored against the cold days.
If thou would be wise and farseeing, get thyself a Bank Book and use it frequently. Be prepared for the Rainy Day; for when it rains it doth pour. But thy Bank Book will protect thee and thou will be blest amongst men.

pay less and get more in lubrication
It is a fact, that the "body" of Zerolene follows the changing piston clearances of the automobile engine more closely than other oils, no matter what price they sell at.
Zerolene, made from selected Naphthenic-Base Crude piped separately to the refinery, and manufactured by our exclusive high-vacuum process, resists heat better, forms less carbon, and consequently the car lubricated with it will run from 25% to 50% farther without having valves or cylinders cleaned.
Zerolene reduces friction and wear to a greater extent than any lubricants we have seen and tested, or been able to produce for the automobile.
Insist on Zerolene—even if it does cost half as much.

Ford TOURING CAR

\$298
F. O. B. DETROIT
A Greater Touring Car Value
The present price of the Ford Touring Car is the lowest ever made.
And yet the car itself is a greater value. It is better looking with slanting windshield, a one-man top and improved seats. And there are many refinements in chassis construction.
The demand is so great that deliveries will soon be impossible. To protect yourself, order now. Make a small down payment, the balance on easy terms.
Ford prices have never been so low. Ford quality has never been so high.
