Dairy Bull Registration Is Law Now In Effect

By ROGEE MORSE, County Agent.

The dairy bull registration law passed by the last legislature, will practically do away with the grade or non-registered bull in Oregon within the next two or three years by making it illegal to sell, give away, buy or accept for dairy breeding use any bull that is not pure bred and registered. The using or offering for use of public service of any bull that is not pure bred and registered is a violation of the law as passed.

The Dairy Husbandry Department of the Oregon Agricultural College is constituted as the Dairy Bull Registration Board and has charge of the administration of the law. According to the law it shall be the purpose of the board to build up and improve the dairy animals of the state of Oregon through selective breeding and an enforced replacement and use of the pure bred sire. The board is empowered to formulate minimum standards for dairy breeding use and to pass rules and regulations to enforce the law and attain the purpose as stated above.

Copies of the law and blanks for applications for license to sell bulls have been received by the County Agent and may be procured from him at any time. Sections one and ten of the law follow: No person, firm or corporation shall sell, give away, buy or accept for dairy breeding use any dairy bull that is not registered, pure blooded breeding and licensed to be sold within the state of Oregon. Further, no person, firm or corporation shall use or offer for public service in this state any dairy bull that is not of registered pure blooded breeding. The term "Public Service" is defined in this law as meaning the breeding of any cow or cows in herds consisting of more than five cows not owned by the owner or owners of said bull or bulls.

Section 10. Any person or persons knowingly or wilfully violating any of the provisions of this act shall be punished by a fine of not less than fifty dollars nor more than one hundred dollars or by imprisonment for not less than thirty days nor more than six months or by fine and imprisonment, for each offense. The use of a bull contrary to the provisions of this act shall be prima facie evidence that the parties did so knowingly and wilfully. Justices of the peace shall have jurisdiction with the circuit courts over cases tried under this law, and it is hereby made the duty of the district attorney of the county in which any violation takes place to prosecute the action. If any provisions of this act shall be held void and unconstitutional, nevertheless all other parts of the same shall continue in full force and effect.

ASSESSED FINE OF \$25.

For violation of the prohibition law Tom Ingram of Harman was taken before Judge Cornett on Monday and assessed a fine of \$25. Tom's difficulty seems to have been the too free personal use of moonshine.
