Professor Barss, Plant Path-ologis*, O. A. C., went into the work of the machine thorough-ly before making the following open r-ommendation to the farmers of the Northwest, in which he said:

"I have compared wheat treated by the Calkins machine with seed treated in our laboratory, seed which we treated as thoroughly as it was possible to apply the dust and the wheat from your machine proved to be as thoroughly coated as it is possible to coat the grain, and yet without an excess which shows that the machine is efficient. I am glad to recommend this machine."

Orders are being placed at

Spokane for deliveries into ev-ery state in the Northwest.

Because of the efficiency, simplicity and durability of this machine it is in the greatest demand. Tho the capacity for manufacture is great it is evident that it will be overtaxed. THEREFORE ORDER NOW IN YOUR OWN INTEREST.
