J. E. Gillespie was in town on Monday from the Alpine section. He has recently closed a deal for the C. Melville ranch of 800 acres and he and his boys will run this land in connection with the J. P. Conder place they have leased. Mr. Gillespie states that there was much good grain raised out that way this season and he considers it one of the best wheat producing sections of the county, even though marketing conditions are somewhat unhandy. Mr. Melville, who was in the city with Mr. Gillespie, states that he has moved his family into Echo where he can have school advantages, having a daughter in high school.

A. W. Agnew and J. W. Campbell were in Heppner and Ione last Saturday. In Heppner much interest was found in the Hermiston high school football team for this season. Several prominent citizens of Heppner complimented the Hermiston visitors on the universal good sportsmanship of the athletic teams which our town has sent over to meet the Morrow county boys. The same men visited Athens, Milton and Freewater on Monday and in all these cities football spirit is in the air. The boys all wanted to hear about the Hermiston team for this year. No bear stories were given out.—Hermiston Herald.

### Oregon Receives Money From National Forests

The State of Oregon has received \$168,111.55 from the United States Department of Agriculture, as its share of the receipts from national forest resources during the fiscal year 1923, according to an announcement by the department. Word to this effect has been sent to Governor Walter H. Pierce. Oregon has 13,137,447 acres in its 15 national forests.

One-fourth of the moneys received by the department from timber sales, grazing permits, and other uses of national forest lands is turned over to the States in which such lands are located on a pro rata basis in accordance with an act of Congress. Such sums are for the school and road funds of the counties containing these lands.

The total sum turned over to all States containing national forests during the fiscal year 1923 amounted to \$1,321,422. Twenty-seven States and Alaska shared in the distribution of this sum, which exceeded the annual average for the previous five years by about \$250,000. Increased sales of timber were largely responsible for the record-breaking 1923 receipts.

**Deal In Dollars**

IT'S GOOD business when you deal in dollars. You acquire a stock in trade which never goes below par and is always good in any market. There is scarcely any reasonable desire that the average person cannot gratify—when they deal in dollars—which is another way of saying "Thrift."

The rapidly growing habit of thrift among the American people and a keen appreciation of the comforts and security that comes from money in the bank, makes it necessary that you do likewise else lose out in enjoyment of a full and peaceful old age.

Remember—a pass book at a bank is the only dream book in which dreams come true.

To get ahead, one must have a definite plan about it. When opportunity knocks—have your **FIRST NATIONAL BANK** pass book about you.
