Richard Lloyd Jones Says:

JUSTICE IS THE GOAL OF CIVILIZATION.

Justice is the goal of civilization. It is the true principle of humanity. Separate liberty or equality from justice and neither can stand. The passion of all great prophets throughout all ages has been for justice.

THE CONSPIRACY.

There was formed the greatest conspiracy against the resurrection of Jesus Christ the world has ever known. They bribed the people who were at the tomb and manufactured a ridiculous lie in order that they might create doubt concerning the resurrection of Jesus.

The original program involved bribery, the use of power and money. They rehearsed their story, memorized it and instructed the people how to repeat it.

There is no historical fact more perfectly established than the resurrection of Jesus Christ, and yet infamously, perjuring, rationalistic, unscrupulous preachers and teachers are denying the supernatural, bodily resurrection of Jesus Christ.

Real Christians should awake to the fact, be aroused to the crime and expose the conspirators and their conspiracy.

Justice is impartial. It is not blind. Science is governed by its laws.

The nation that loves liberty most sincerely and fights only for human justice is seldom found in the brutal entanglements of war and that only in a benighted way may hold by the passion for justice.

"Justice," said Daniel Webster, "is the greatest interest of man on earth. It is the ligament which holds civilized beings and civilized nations together."

Happiness and progress are secured only when justice is honored.

SOMETHING YOU SHOULD KNOW ABOUT WINTER LUBRICATION. If an oil solidifies in cold weather it can't lubricate your car.

That's why we say—use Zerolene "cold-test" oil, — it remains fluid in cold weather and lubricates the bearings and cylinder walls at the first turn of the motor—and makes starting easier.

You'll probably avoid trouble and expense by getting on the safe side, with Zerolene.

STANDARD OIL COMPANY (California).

Zerolene No. 1, No. 3 and No. 5 are all good "cold-test" oils.

If you have trouble shifting gears, use Zerolene Transmission Lubricant "B"—it remains fluid at low temperatures and permits ready shifting of gears.
