

Light, Low Priced Car Most Popular

Prophecy of Henry Ford in 1910 Proven True; Need of Mass of People Clearly Fulfilled.

How clearly Henry Ford saw the future of the automobile and how well he prophesied it, is shown in an article written by him in February, 1910, and published in a Detroit newspaper.

In 1909, as the article states, 2,000,000 horse-drawn vehicles were sold as against 40,000 automobiles. Now the prophesied reversal came.

The article follows: "The automobile of the past attained success in spite of its price, because there were more than enough purchasers to be found to take the limited output of the then new industry."

Proportionately few could buy, but these few could keep all the manufacturers busy. The price therefore had no bearing on sales.

"The automobile of the present is making good because the price has been reduced just enough to add sufficient new purchasers to take care of the increased output. Supply and demand, not cost, has regulated the selling price of automobiles."

"The car of today is better by far than the car of a few years ago—the natural result of experience. The price is lower, just enough to add sufficient possible purchasers to buy the increased output."

"The automobile of the future must be the car for the people, the car that any man can own, who can afford a horse and carriage, and mark my words, that car is coming sooner than most people expect."

"In the low-priced car dwells the future success of the automobile. Comparatively few persons can afford even a \$1,000 car. A limited number of factories can easily supply all the demand for high-priced cars, but the market for a low priced car is unlimited."

More than 2,000,000 horse drawn vehicles were sold by American factories in 1909. When you substitute a motor-driven vehicle for each of these two million wagons and carriages, you get an idea of the automobile of the future."

"The low-priced car will not be a make-shift, an automobile by courtesy, a machine built for price. It is harder to sell to a man who can only afford a low-priced car than to the man whose money comes more easily. Not only must the successful car of the future be low priced, but it must present at least equal value with the present high-priced cars."

"The low-priced car should actually be better than the car at a higher price, for more is expected of it. The man who can afford the high priced car can afford a man to keep it in order, while the man who has to buy a low-priced car, if any, has to look after it himself, whether or not he has any mechanical ability. Likewise, when he buys, he buys for business use and pleasure too. That condition prevails today. The low-priced car must be better built than the higher-priced product, because it receives harder use. The successful low-priced car of today is successful because it stands harder usage than is accorded to \$5,000 creations."

"Equally important with low cost as a qualification of the car of the future is 'low cost of upkeep.' The weekly expense of an automobile will be more important to the man whose income is \$100 a month than will the cost price. The one he has saved by easy stages, the other must be taken out of the very dollar that had been sent them for job work. They were deeply interested in the town and boosted it whenever they turned the tables in the second inning and had the best of the game till the seventh inning. Condon then rendered themselves and the game ended with the score 18 to 13 in Condon's favor."

The next game for Hardman will be played at Heppner Saturday with Heppner high. Ions will play here next Saturday, April 13. The juniors of the high school are now preparing "The Prairie Rose," a four-act comedy-drama, which they will present during the final week of school. This will take the place of the usual commencement exercises, as there is no senior class to graduate here this year. This play is one of the best comedy-dramas for high school presentation. It abounds in paths of the simple out-of-doors life of the west, and the tragic climax is relieved by the humorous situation closely associated with it. The presentation of the drama will call for the best efforts of the students."

The girls of the high school gave an entertainment in the auditorium last Friday evening. Refreshments were served after the program.

A FABLE IS RIGHT. Once upon a time there was a mail order printing concern who put back into the town every dollar that had been sent them for job work. They were deeply interested in the town and boosted it whenever they turned the tables in the second inning and had the best of the game till the seventh inning. Condon then rendered themselves and the game ended with the score 18 to 13 in Condon's favor. The next game for Hardman will be played at Heppner Saturday with Heppner high. Ions will play here next Saturday, April 13. The juniors of the high school are now preparing "The Prairie Rose," a four-act comedy-drama, which they will present during the final week of school. This will take the place of the usual commencement exercises, as there is no senior class to graduate here this year. This play is one of the best comedy-dramas for high school presentation. It abounds in paths of the simple out-of-doors life of the west, and the tragic climax is relieved by the humorous situation closely associated with it. The fit, style, quality and wear make them worth \$50.00 of any man's money. Sold under a positive guarantee of perfect fit and satisfaction. FRANK W. TURNER HEPPNER, OREGON

So They Voted for "TH" The question in the Graham home was whether it was to be TH-rift or D-rift. The vote was for TH-rift after Mrs. G. presented it thusly: "Are we content to drift along with no preparation for the future?" "Or, are we thrifty going to save money for the future?" "A bank account will help us meet possible misfortune without a qualm." "And when opportunity knocks it will make it possible for us to take full advantage." "Now—what do you say, shall it be thrift or drift?" This bank helps people save by paying 4 percent interest on saving accounts. Start yours today. Farmers & Stockgrowers National Heppner Bank Oregon
