

Local Happenings

Misses Johnnie F. Fleet and Harriet Chambers, teachers the past two years in Heppner high school, departed for their homes at Portland on Saturday, following the commencement exercises. These young ladies will not teach in the Heppner school the coming season, though they had each been re-elected. Miss Chambers will go to Pendleton as the head of the home economics department in the school there next year, while Miss Fleet will retire from teaching and it is reported that she will return to her former home in Missouri. Good teachers, both of them, and the Heppner school board regrets to lose them.

B. B. Bayles, in charge of plant breeding at Moro experiment station, visited the Morrow county wheat nurseries on Friday, and in company with County Agent Morse checked up on the two nurseries here. Mr. Bayles was very agreeably impressed with the showing made up to the present time and found the grains standing the drought well. The general condition of crops in Morrow county is no worse on the average than in Sherman and Wasco counties, the entire grain section being affected alike by the continued dry weather. Mr. Bayles went on over to Umatilla county Saturday evening.

Mr. and Mrs. Albert Adkins returned on Sunday from Hood River and Gresham. Albert took in the I. O. O. F. grand lodge at Hood River and then went on to Gresham to join Mrs. Adkins and have a short visit. Returning with Mr. and Mrs. Adkins were Mr. and Mrs. John Brown, parents of Mrs. Adkins, who are spending the week visiting here. In former years Mr. Brown farmed in the Social Ridge section, along side his cousin, Judge Campbell, but he retired from the game a good many years ago and it has been at least twenty years since he was in Heppner last.

R. J. Carner of Spray, republican nominee to succeed himself as state senator from the 13th senatorial district, was here Monday. Carner has been one of the most independent and dependable senators in the Oregon legislature and it is gratifying to his friends here to know that he is to be returned for another term. His democratic opponent is A. B. Robertson of Condon, but the vote which Carner received indicates that he will be retained. In his home precinct he received 135 votes to seven for his opponent.—Prineville Central Oregonian.

Billy Padberg was in town Saturday and says that he is going to have a fairly good yield of wheat at harvest time. It would not surprise him to see an average of about 15 bushels to the acre out in his part of the county; the fact is Morrow county always produces a lot of grain regardless of the season. When you stop to think about it, isn't it remarkable that the grain is holding up as well as it is; there was no moisture in the winter and it has been a long time since we have had rain.

Mrs. Ruth Barnett of Walla Walla accompanied by her son Louis Windsor and wife, visited at the home of Mr. and Mrs. E. L. Benge in this city on Sunday. Mrs. Barnett is a sister of Mr. Benge. Mr. Windsor, whose home is near Yuma, Arizona, is on a visit to relatives in the northwest and he and Mrs. Windsor will return home by way of California. The visitors departed on Monday morning. Mrs. Barnett returning home and Mr. and Mrs. Windsor going to Longview, Wash.

Mrs. T. J. Humphreys left by auto Wednesday morning, her destination being Hillsboro, where she will spend a few days and then go on to Eugene to be present at the commencement exercises at U. of O., where Misses Leta and Evelyn, and Roland are students. Mrs. Humphreys was accompanied as far as Portland by Mrs. W. O. Livingstone and daughter Lois, and Miss Melick. Mrs. Livingstone and daughter expect to spend a couple of months in the Willamette valley.

Sheriff McDuffee returned home Friday last from Salem and Portland. He reports the Willamette Valley as looking very pretty just at this time of year, and apparently not affected so much by dry weather as is Eastern Oregon. However, they need rain and it must come pretty soon or there will be a different story to tell. The dry spell is already noticeable in the hop fields and unless rain comes very soon this will be a short crop.

Harry E. Cool of Ione was a pleasant visitor at this office on Saturday while spending a few hours in the city. Mr. Cool is on the place known as the Shutt ranch on Willow creek below Ione, and states that this is a year when it is good to be located on a place where irrigation is handy. The first crop of alfalfa is made on his place, and Mr. Cool is "wetting up" for the second crop while Willow creek affords plenty of water.

Mr. and Mrs. R. L. Benge and daughter, Miss Luola, departed for Walla Walla Tuesday morning, going to that city to take in the big pageant and to enjoy a visit with relatives and old-time friends. Mr. Benge is a native of Walla Walla and he will see many former friends and acquaintances during the two days of the pageant.

Mrs. C. L. Keithley was a visitor here from Pendleton on Friday, coming over with D. C. Wells, of the firm of Wells & Keithley, realtors of the Umatilla county capital, who was in Heppner closing up a real estate deal. Mrs. Keithley remained over at Heppner for the week, visiting at the home of Mr. and Mrs. J. C. Kirk.

George Wilson of Cecil was in Heppner Saturday, making preparations to go into the high mountains with some of the Hynd Bros. sheep. The sheep will be moving out to the summer ranges at once, and George expects to put in the summer in the vicinity of Granite.

Mr. and Mrs. C. H. Latourell returned Monday forenoon from East lake, where they spent several days outing the past week, and where Charley landed a lot of the big eastern brook trout. They also enjoyed a big rain storm at the lake.

For sale at a bargain—7-room residence with full basement, on corner next to power house. Would consider land or light auto truck in trade. W. H. CLARK, Box 24, Heppner, Oregon.

R. M. Hart and daughter Lucille came up from Portland on Friday, remaining over until Monday. This is Mr. Hart's first visit to Heppner since leaving here two years ago. He is enjoying a prosperous business in Portland and says times are good in the city. Mr. Hart still owns his residence property in this city and was here to look after it.

Everett Pattison came up from Portland on Sunday and is spending a few days in the city helping his mother in the disposing of some of their household effects. Mrs. Pattison expects to leave Heppner about the coming Sunday and will remain in Portland for some time before going on east to join Mr. Pattison.

Harlan McCurdy, who was a visitor in this city on Monday, states that the shearing of the Davidson and McCurdy sheep was completed Saturday and they got a fine clip of wool. Grain on the big Davidson ranch still holds up well though there is indication of shortage and the thin spots are pretty dry now.

T. W. Cutsforth and wife of Lexington, old friends of the Klitz family, motored to Boardman Saturday and visited at the F. F. Klitz home. Mr. Klitz had come up from Arlington on Friday to attend the high school commencement exercises and remained home over Sunday.—Boardman Mirror.

Mr. and Mrs. Gunnar Lindhe of Alpine were visitors in Heppner Saturday. Mr. Lindhe states that the continued dry weather has raised havoc with a mighty fine stand of wheat on his place and he shall have to be satisfied with about a ten-bushel yield.

Prof. Wallace Kellogg and Mrs. Kellogg were among the Lexington visitors attending the graduation exercises of Heppner high school on Friday evening. The school at Lexington closed the past week and Mr. and Mrs. Kellogg will leave the city shortly.

Mr. and Mrs. H. A. Gorham and family of Walla Walla were visiting at the home of Mr. and Mrs. Chas. Valentine over the week-end. Mrs. Gorham is a daughter of Mr. Valentine and they are engaged in farming in the Walla Walla country.

Grant Olden and A. A. McCabe, Fairview farmers, were doing business here on Monday. They think if it does not rain pretty soon, we may be afflicted with a long dry spell. The cooler weather has been a help, however, to the grain.

Mr. and Mrs. Karl L. Beach were Lexington folks who witnessed the graduation of the class of 1924 of Heppner high school Friday evening. Their sons, with some other Lexington students, assisted with the orchestra.

LOST—One 3-yr-old steer, branded BHP on left hip; lower 1/2 crop, or under slope in left ear; one 2-yr-old steer, same brand and ear mark, high arched horns. Reasonable settlement to finder. B. H. PECK, Heppner.

Mr. and Mrs. Stephen Irwin, now residing at La Grande, are the proud parents of a little daughter, born to them on May 20th. The little lady has been given the name of Barbara.

Jefferson and Frank Evans were down from Walla Walla over the week-end, enjoying a visit at the home of Marion Evans on the creek. They report the crop outlook pretty bum in the Walla Walla country.

Mrs. G. C. Akien departed Wednesday morning for Oakland, California, for a visit at the home of a sister residing there. She expects to remain in the California city until about the first of July.

Miss Gertrude Davies and Miss Lorena Wright, grade teachers of the Heppner school, departed for their homes on Friday afternoon. Miss Davies went to Baker and Miss Wright to Portland.

Miss Gloria Christ, teacher the past year in the Heppner grades, has been employed to teach in one of the Portland schools the coming year. She departed for that city on Friday afternoon.

Miss Helen Curran, who is a student nurse at the St. Vincent's hospital in Portland, came up Monday for a visit at the home of her parents, Mr. and Mrs. Mike Curran, in this city.

We have just received a shipment of Spokane Draper Company's harvesting machinery drawers. The best draper made. Come in and see them. PEOPLES HARDWARE COMPANY.

Miss Isabelle Steele, music teacher in our school during the greater part of the past year, left for her home in the Willamette Valley the first of the week.

FOR SALE—Seed corn; N. W. white dent. Acclimated to local conditions. Postpaid, 10c per pound. ALWYN JONES, Box 231, Arlington, Oregon.

Cashier John Higley of Farmers & Stockgrowers National bank, returned Monday from a trip to Portland, going to the city on Saturday.

Judge Campbell returned the last of the week from a visit over in Grant county, having business at Dayville and Canyon City.

W. O. Hill, cashier of Lexington State Bank, attended the closing exercises of the Heppner high school on Friday evening.

Mrs. E. F. Day of Portland spent the week-end in this city visiting at the home of her sister, Mrs. Ellen Buselek.

John Padberg and wife and Oris Padberg and wife were Heppner Flat farmers in the city on Saturday.

John Jenkins, prominent resident of the Boardman project, was a visitor in the city on Tuesday.

Judge Jas. A. Fee, pioneer attorney of Pendleton, was a business visitor in this city on Friday last.

Experienced firm wants work, ranch preferred. Inquire at office, or address Box 187, Heppner.

FOOT AND MOUTH DISEASE IN CALIFORNIA YIELDING TO CONTROL.

(Morrow County Extension Service News)
The foot and mouth disease outbreak in California appears to be slowly yielding to control measures that are being taken by the Federal Veterinarian in charge. No new outbreaks have been found in the past ten days, and the situation is encouraging according to reports received from Dr. T. B. Simms, of the Oregon Agricultural College. Dr. Simms has been in California the past month as a representative of the Oregon State Livestock Sanitary Board. Several suspicious cases in Morrow county have been investigated by County Agent Morse, and no indication of the disease was found.

The County Agent has been appointed by the Morrow County Court to have charge of precautionary measures to be taken in Morrow county. Any suspicious cases should be reported to him at once. The following symptoms are quoted from a letter from the State Veterinarian: "Always remember that foot and mouth disease is generally ushered in with a chill followed immediately by high temperature, 105 degrees frequently and sometimes more. Animals develop a bilater-like lesion in the mouth, on the tongue and around the hoofs. These blisters are white and look exactly like a blister that forms from a burn from boiling water. It has a yellowish serum inside and when it ruptures the skin breaks off with a square edge just the same as a blister on the hand. In four or five days time the whole herd would have foot and mouth disease infection. When animals get lame they get lame in all four feet as a rule. They stand humped and run a high fever for about a week and the milk secretion is practically stopped."

NO ALFALFA WEEVIL PRESENT IN MORROW COUNTY.

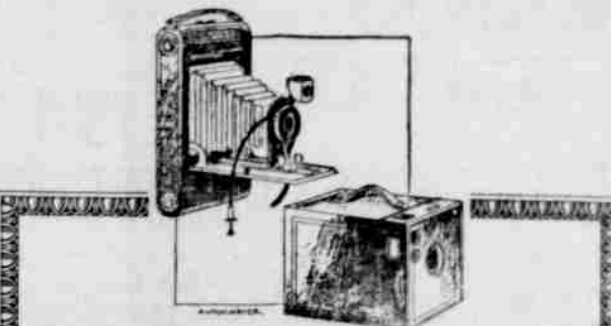

A reported infestation of alfalfa weevil in the north end of the county was investigated by County Agent Morse and Mr. H. K. Dean of the Hermiton Experiment station. The worm, thought to be the larvae of alfalfa weevil was found to be a small green worm that was feeding on alfalfa which were present in the fields in large numbers. The larvae stage of alfalfa weevil is a green worm-like creature one-fourth of an inch long with a black head and a faint white stripe down the middle of the back. It feeds upon the leaves of alfalfa during early summer. This is the stage at which they do the most damage and it is about the only time that

their presence can be easily detected in the fields.

GRAIN GROWERS ELECT DELEGATES.

The Morrow county unit of the Oregon Co-operative Grain association held their annual meeting and election on Friday, the 22nd. Twelve members were present at the meeting and members sent in their votes by mail. Delegates elected from this district were Howard Anderson, Ralph Benge and Henry Smouse.

Remember we are selling hardware at 10c a board foot. PEOPLES HARDWARE COMPANY.

Remember---

You will remember your pleasures and joys of the summer—but not with the accuracy that pictures tell. Carry a camera with you on your trips this year. Every person is a photographer with our easily manipulated SENACA and EASTMAN cameras.

MEMORIAL DAY

All stand upon a common ground this day, duty bound to make this nation a living monument to our soldiers of all wars who gave their lives in the cause of Liberty and the furtherance of our national ideals.

We want to join you in honoring our heroes and are happy to cease material tasks of the day and turn to the lofty and the spiritual. We bow in respectful silence and renew that prayer of freemen that this nation "shall not perish from the earth."

Ours is a nation free at last from all lines—no North—no South—no East no West—a world leader in every great movement for peace and happiness. We are eternally grateful for our enviable position as a nation.

The First National Bank of Heppner
