ZEROLENE for FORDS leads in SALES

Zerolene "F" for Fords, the Standard Oil Company's new oil for Ford cars, was for the first time drawn from the pumps at garages and at Standard Oil Company Service Stations and offered to the public about the middle of last December.

The response of the motoring public was immediate and overwhelming. Today Zerolene "F" for Fords is the most popular oil on the market for Ford lubrication.

Lubricates Better—Costs Less The verdict of users verifies the claims of our Research Engineers—that Zerolene "F" for Fords meets the special requirements of the Ford lubricating system better than any other oil.

Yet it costs not more but less than any of the special Ford oils on the market.

A Longer Life for Your Ford We believe that Zerolene "F" for Fords will increase gasoline mileage, reduce carbon removal operations, and lengthen the working life of every Ford in which it is used.

A Ford is an A-1 transportation investment. Protect your investment by proper lubrication.
