This Week

Ten Men and a Thousand. One Oak, \$4,000. W. L. Douglas, Builder. Dempsey and Defense Day

WILLIAM G. SCOTT IS PNEUMONIA VICTIM

Prominent Lexington Citizen Answers Last Call Friday Morning.

NATIVE OF CANADA

Born June 17, 1862; Came to Oregon in 1883 and Built Up Reputation for Square Dealing.

Following an illness of about three weeks, during which time he was a sufferer from an attack of pneumonia, W. G. Scott passed away at his home in Lexington on Friday morning at 8 o'clock.

While on a trip to Spokane about three weeks ago, Mr. Scott was taken ill and on arriving home he was compelled to seek his bed, a severe case of pleural pneumonia having developed. Just prior to making the Spokane trip, Mr. Scott complained of feeling bad and thought he was coming down with a spell of sickness.

Before the President builds another battleship let him ask the builder this question: "Are you willing to build that ship for forty million dollars and guarantee that it will be about ten hours after being attacked by one hundred thousand dollars' worth of fighting airplanes?"

There are now regular quotations for counterfeit notes. The average price is \$25 for \$100 worth of notes. The market is stabilized by the demand for such money, used by bootleggers in buying liquor from the rum fleet, sent by our British brothers.

The managers of the boats are good bootleggers, but not familiar with American money, and many, it seems, have been taking bad money for worse whiskey—which seems fair enough.

A Presbyterian church in New Jersey spent \$4,000 in one year, taking care of a huge oak 400 years old. The oak may be worth it. But that sum would have planted several thousand trees along New Jersey roads.

Above the base at Quantico, Va., flying machines are practicing, and on the ground our honest U. S. Marines in deep amazement, "observed that a flock of buzzards, after watching the aviators, imitated all their flying tricks in the air."

W. L. Douglas died in Boston last week. His name will be remembered among the builders of great industry, among those that helped to free humanity from slavery, by making machines do the work of human hands.

Those that consider Preparedness and Defense Day a menace to peace please notice this: Jack Dempsey is prepared. If you doubt it, pull his nose. As he goes through thick crowds everybody knows him, everybody is POLITE. Nobody slaps him or insults him, and he does not hit or insult anybody. HE'S PREPARED and people let him alone. He lets them alone unless they get in the ring with him.

As it is with individuals, so with nations. When they are prepared they have peace.
