Keep Coolidge and Elect Dawes

Vote For the Common-Sense Candidates---Their Records Recommend Them

"I AM FOR ECONOMY. AFTER THAT I AM FOR MORE ECONOMY"--Coolidge

He proved his faith by his works. This administration has saved the people \$6,000,000 daily in taxes as compared with 1921. It has lopped off 95,456 employees from the federal payrolls.

Dawes, the budgeteer, put the country on a business basis by cutting out the deadwood in governmental affairs. Deficits in former years have been turned into surpluses. The national debt has been reduced \$2,750,000,000 in 3 years.

FOREIGN POLICY SPELLS PEACE ABROAD AND PROSPERITY AT HOME

The Dawes plan has made possible rehabilitation of Europe, which means better markets and better prices for America's farm crops. Limitation of armaments is an administration policy and makes for peace as well as reduced cost of government.

The Republican tariff, linked with restrictive immigration, has brought prosperity to the man who toils. Wages were never so high, they would never buy so much as today.

COOLIDGE POLICIES HAVE RE-ESTABLISHED PROSPERITY—CONTINUE THEM

When this administration took office, it faced all the problems of reconstruction. Deplorable conditions existed. The people were suffering from a tremendous deflation. Interest was high and capital scarce. There was general acute financial distress. Our citizens were compelled to sell their government bonds around 85 that they had bought in wartime at par.

A complete change has been accomplished. Never before in peace time has there been such constructive accomplishments as since March, 1921. Prosperity for all the people has replaced general distress. Industrially, the country was never on firmer ground. Agriculture, in dire plight when the Republican party came into power, faces a brightening future. Our depreciated government bonds have all risen above par and one is selling at better than 106.

THESE ARE SOUND, CONSTRUCTIVE, SENSIBLE ACCOMPLISHMENTS

Figure It Out Yourself

LET us give you a few facts and figures to show you why dairy cows should be on your farm.

Assuming that all the milk of your cows were marketed in the form of butter fat, a fair average would be 36 pounds per cow. The market price fluctuates around 48c per pound or a gross revenue of \$17.28. The hay for feeding would only amount to \$5.00 per month of a net return of \$12.28 per cow. Now, if you had 10 cows, your monthly profit would be \$122.80 for at least 10 months of the year. Don't these figures speak for themselves?

Here at the FIRST NATIONAL BANK, we believe, Mr. Farmer, that much prosperity will be added to our community if dairy cows were on every farm, and we are more than willing to assist and co-operate with you.

The Pacific International Livestock Exposition at Portland, Nov. 1st to 8th, is the largest and leading general livestock show in America. It furnishes a wonderful opportunity to learn how breeders of purebred beef and dairy cattle, sheep, hogs, goats and horses are bringing large profits to their farms. You will greatly enjoy it and profit by attending.
