SEES VICTORY FOR **COOLIDGE IN STATE**

Portland, Ore., Sept. 29.—"Coolidge will carry the state by a substantial majority," declared I. L. Patterson, republican state central committee chairman, in a pre-election statement

chairman, in a pre-election statement here today.

"There is not only every sound and sensible reason for his continuance in office but every indication as well that he will sweep Oregon along with the remainder of the country. Only twice since 1860 has Oregon wavered in her republican allegiance, once in 1892 when she filtred with populism, and in 1912 when the party was hopelessly split. No such situation exists this year and I am firm in the belief that the state is safely for Coolidge. for Coolidge.

to be put in the saddle. It attacks the constitution and brazeniy arrogates to itself all public virtues, claiming a monopoly of public honself and integrity.

"Every person of intelligence knows these claims are on a par with the false charges flung about so intemperately during the campaign just closing. In view of the crisis the government faces, with the threat of election being thrown into the congress, with the result that our postwar reconstruction, now so well along would be set back a year or more by the confusion that would follow, it is the plain duty of all good citizens, as I view it, to vote for Coolidge and make his election sure."

HALLOWEEN—A WARNING.

Realizing that hallowe'en is a time

Realizing that hallowe'en is a time or fun making and jollification, and to caution the young folks of the city that they should not "carry on to the extent of working injury or destruction to the property of any citizen of the city, yet not desiring in any way to restrict them in their pursuit of innocent fun, the city council desires to issue a word of warning, and trusts that it will be heeded by all who are out on the night of the 31st. that heretofore it has been necessary

Luther Huston Passes After Months of Sickness; Was Born In Illinois May 15, 1852

After several months of intense suffering, three months of the time being confined to his bed, death came to the relief of Luther Huston, esteemed resident of this city and a ploneer farmer of Morrow county, on Sunday morning, October 26. Mr. Huston had been a sufferer from diabetes for a number of years, and he had made a valient fight to overcome the rawages of the disease. Being a man of wonderfully strong vitality he was able to keep going much longer than many who were likewise afficted, and many were the times his

on Sunday morning at 8 o'eleck.
Luther Huston was born in Henderson county, Illinois, May 15, 1852,
and died in Heppner, Oregon, October
26, 1924, aged 72 years, 5 months and
11 days. He came to Oregon with his
parents in 1853, pioneers who made
the journey by ox team, and settled operation of the splendid cooperation throughout Oregon of the

work has been most earnest and patriotic and our reports show it has
been most effective. To all these

WILL THE DAIRY COW DENT HEPPNER FOLLOW THE HOG?

A few years ago farmers were urged to raise more hogs because the hog was a "mortgage lifter." The hog used to be, but he isn't any more. The hog occupies a minor place to-day. The power of advertising has robbed him of half his value. Do you find lard any more? Not very much; its place has been taken by vegetable

The day is coming and coming fast

The day is coming and coming fast when the dairy cow will be displaced by these same vegetable oil manufacturers. The same methods are being used, and the foster mother of the human race is being slowly pushed back from her rightful place.

No fault would be found with this, were it not for the fact that the health and wealth of our nation are being seriously injured by this substitution. If vegetable oils contain growth and disease resistant qualities, and if our people could build homes from the raising of coconnut trees, this law would never have proposed in Oregon. If we could raise strong babies and make good livings while cating the distilled essences of carnations and lillies of the valley, we would all agree that we could do

while eating the distilled essences of carnations and lillies of the valley, we would all agree that we could do away with such coarse and vulgar things as pigs, cows and sheep. We could not eat potatoes any more, but subsist on delicate things like rose petals, and be truly refined.

But the good Lord gave us hodies which need certain elements, and these elements are not found in the cheap mixtures which are put on the market so attractively. Milk, butter and cheese are essential to the health and proper development of children. They need them. A law protecting these articles from invasion is right. Oregon is a dairy state. Her development and prosperity depend to a very large degree on the maintenance of the dairy industry. To protect our business interests is right, and a law protecting them is just and proper.

The claim that counterfeit butter cheaper than real butter is freely imitted. Counterfeit dollars are admitted. cheaper than real genuine dellars. Neither of the counterfeits are worth much in comparison with the genuine.

This harping on cheapness should be understood. The baby whoose mother used milk and dairy products is born with an equipment for the production of sound teeth. The average per capits consumption of butter in the binted States is 15% pounds per annum. This costs the consumer

mers, hired help, employees in cream-eries, cheese factories, condensed milk plants and the like. How much can anyone save on dairy substitutes if a fourth of the state is out of en-

ployment?
On November 4 the election is held

We urge citizens who have the best interests of their state, their city, their community, their families, their finances, their health, at heart to vote for this measure. It was passed once by our legislature, but referended by oleo interests. It is a measure of protection and safety for all of us

TAX LEVY RECORD OF COUNTY COURT

To date but little has been said con-cerning the local far situation in Morrow county. Much talk has been made about the various candidates, the county court has perhaps comes in for a share of criticism as to the tax situation, but a little investiga-tion on the part of any interested tax payer will reveal to him the fact that our present county court with

tax at Lexington field on Saturday between the locals of that city and the big huskies from Wasco high The Wasco bunch went up against Heppner two weeks ago and found they had a tough bunch on their hands, but were able to hold them for a score of 12 to 0, under the impression that Heppner was going into the fray for a "practice game," as reported in their home paper; it was tough practice for the Wasco tram, however, and our boys played them for all they were worth. If we mistake not, they will get just as hard a tosele at Lexington, and here's hopin' that the Wheat City lads get the long end of it.

In the four games that Lexington has played so far, they have 224 points in their favor to 9 against. They have played Arlington, Lone, Boardman team was the only one able to make a score against them. Wasco has defeated every team she has tackled so far this season, and is determined to go down the line for the pennant in the Mid-Columbia scholastic contests. Heppner hopes to be the team that will play off the finals with Wasco.

The game between Heppner and lone on Saturday last at the Jone field was taken by Heppner in a score of 21 to 6. The game scheduled to be played on the Heppner field Saturday with Wheeler County Hi of Forsail, has been called off by the Possil team and the home boys will play the second team of Pendleton, where they will play the second team of Pendleton first team and The Dalles.
