To Prevent Pneumonia.

State Board of Health.

Man should be familiar with pneumonia as it has been known for centuries. But it is a persistent enemy and kills over six hundred and fifty persons every year in Oregon. Pneumonia cannot be placed under absolute control, but individuals may, by caring for themselves properly, lessen their chances of contracting the disease by observing the following rules:

Dress for the weather. When coming out of the cold heavily dressed, remove your heavy wraps immediately. If your clothes are wet, remove them, dry the skin, and put on dry clothes. When going out in the cold, dress warmly. After having put on heavy clothing, go out immediately.

Announcement

To the People of Heppner and the Public at Large:

I wish to announce that I have taken over the management of Hotel Heppner, and from now on the hostelry will be in my charge. I come to Heppner with 18 years of experience gained in conducting hotels at Condon and Enterprise, Oregon. In the former place for a period of eight years and the latter for ten years. I am thoroughly conversant with the conditions here, and promise the people of this city and the traveling public that under my management Hotel Heppner will be run in a manner that will be above criticism; it will be a clean place, where you will feel absolutely safe in bringing your wife or your daughter and you will always have kind and considerate treatment. A complete renovation and cleaning up of the rooms is going on, and I will soon have the hotel in first class condition.

It is my purpose as soon as I can make the necessary arrangements, to reopen the dining room to the public, and serve meals in a homelike way. I assure you that you will always be a welcome guest at Hotel Heppner.
