## This Week's Cross Word Puzzle

By WILLIAM SHERRILL

### HOW TO SOLVE A CROSS-WORD PUZZLE

The first letter of each word is indicated by a number placed in the blank white spaces, and by referring to the list of words given below, you will find the definition. For instance, number one horizontal gives the definition of a word which will fill in all the white spaces to the first black space at the right. Number one vertical gives the definition for a word which will fill in all the white spaces to the first black space below. The black spaces indicate the end of a word, and no letter is placed in them. When completed, the puzzle must read both horizontally and vertically or across and down.

This puzzle is designed by William Sherrill for those who have correctly solved a dozen or more cross-word puzzles, and consequently feel that they are pretty good. There is nothing tricky about it. Every definition means exactly what it says and the words themselves are not extremely difficult. However, if you get a fall out of this one you will know you have had a tussle.

**ALPINE MEETING.**

Wallace Jones, pastor of the Christian church of Lexington, will preach at the Alpine high school building Sunday, May 31st, at 8 p. m., and if the attendance and interest seem to warrant, will continue in an evangelistic or protracted meeting for some time. There seems to be quite an interest and if the busy time of spring work is sufficiently past to warrant and guarantee the attendance the meeting will continue. Come and enjoy this meeting and the announcement will be made at that time as to whether the meetings will continue.

**Worthy of the Trust**

Service without regard to personal safety or gain is deserving of all the honor and reverence we can bestow. Our soldiers of all wars gave such service freely. They gave to us one of the great nations of the world.

Ours is a sacred duty today. We have ideals of government, of the people, by the people, to sustain. In our giving—let us not forget that those before us did not falter when duty called. We are proud to honor those brave souls. Small as our acts and thots may be—(the mere pausing annually to place a flower—a flag—and utter a prayer of thankfulness)—let it be worthy of the trust given us.

# McCORMICK-DEERING HARVESTER-THRESHERS

Specially Built for Hillside Harvesting!

**ONCE OVER AND IT'S ALL OVER**

ONCE OVER AND IT'S ALL OVER" yearly becomes the harvest slogan of a rapidly increasing number of practical, deep-thinking grain growers—men who know that low production cost is the surest guarantee of grain profits. These men are buying McCORMICK-DEERING HILLSIDE HARVESTER-THRESHERS! First, because the McCormick-Deering is a proved success, both at home and abroad. Second, because they realize the value of dependable, close-at-hand Harvester Company service.

The McCORMICK-DEERING Hillside Harvester-Thresher is a remarkable machine. Built for 12-ft. cut, this combination harvester and thresher cuts the grain, threshes it thoroughly, separates it from straw and chaff, and delivers it into wagon box or sacks. Straw is scattered at the rear as fertilizer for future crops.

Grain Is Delivered Direct From Sickle to Thresher

eliminating use of twine, hauling of shocks, and losses due to handling. "Once over" harvesting saves time and labor, and puts the grain in shape for immediate marketing when prices make this advisable. Grain cut and threshed with the McCormick-Deering is in every way equal in quality or better than that cut and threshed with separate machines!

Plan Now for Harvest Time!

We suggest that you consider investment in one of these thoroughly modern and practical machines this year. Fully illustrated literature will be sent on request. Call on the McCormick-Deering dealer and learn more about this machine.
