What Would This Country Be Worth ? ?

What would your business be worth, Mr. Stockman? What would your farm be worth, Mr. Farmer? What would your job be worth, Mr. Laboringman?

IF EVERY BUSINESS HOUSE IN THIS COUNTY WOULD CLOSE THEIR DOORS AND DISCONTINUE BUSINESS?

IT WOULD then become a necessity to send to the mail order houses, with several days wait, for every little article you wanted. Would this be a desirable place to live in then? How quick the community would begin agitating for local business houses. Do the mail order houses pay taxes to keep up our roads and schools? Do they take a few dozen eggs in exchange for groceries? In case of some calamity or some destitute family, do they contribute? What would you think of the service of the local merchant if you had to pay for each article, then wait several days for its delivery? Don't fool yourself. Look at this situation on the square. Remember, we meet any price on first quality goods when the money is placed upon our counter. If you do not believe so, bring your catalogue and we will convince you. Let us figure with you on that harvest order. Of course, you have a right to buy where you please. But let your local merchant have a chance to figure with you before sending away. Our store is your store. We are here to serve.
