

THE GAZETTE-TIMES

THE HEPPNER GAZETTE, Established March 20, 1892... THE HEPPNER TIMES, Established November 12, 1897... CONSOLIDATED FEBRUARY 12, 1912.

DETERMINED that there will be a cleaning up of the rubbish and debris left as a result of the fire several weeks ago, the city council at its last meeting made arrangements for the calling of a holiday, when the business men of the city will be asked to close their places of business long enough to turn out and do the job.

There is still an eyesore that has stood and grinned at the passerby and visitor to the city for the past seven years, located on the most prominent corner of the city, and while the good work of cleaning up the remains of our disastrous fire of recent date is going on, this should be cleaned, also.

PETITIONS, containing the names of better than 25 per cent of the voting strength of Morrow county, were this week filed with the county court, asking that an election be called for the purpose of voting on the proposition of bonding the county in the sum of \$550,000 to furnish the means for carrying out the road program of the county.

A Lesson Learned. THE MANUFACTURER. IN THE midst of plenty and prosperity in a land like the United States, it is necessary for the people to realize the advantages which they enjoy, if they are to fully appreciate them.

experience and will profit from the same. It is safe to say that it has learned and it has also profited. A great industry today is no longer a one-man institution. Instead it is owned by thousands and hundreds of thousands of everyday American citizens who have a voice in its management.

There is no question but what this change in ownership has been responsible in a large degree for the change in sentiment toward business generally. Rational consideration of business problems has been brought about as our people have gained a better understanding of the questions at issue.

With experience has come understanding. Today, the cry "big business" arouses no anxiety. The public cares not how big a business gets, so long as it is conducted honestly and in the public interest.

That our greatest industries are fully aware of their duty and obligation to the public is evidenced by the fact that their brightest executives are in charge of or devote a great share of their time to the public relations work of their companies.

Henry Ford's question can be safely answered in the affirmative—American business has learned by its past experience. And further, it can be said, the American people have profited by making themselves acquainted with business problems, and by accepting partnership in our leading industrial companies, thus establishing real public ownership on a sound footing free from politics.
