Some interest was taken in a scrap between two dogs in front of the office of Dr. McMurdy on Wednesday morning. The bound dog belonging to Frank Farnsworth is somewhat of a pugilistic turn of mind, and he was apparently the aggressor in this fight when he challenged the McMurdy Air-dale to a bout. The dogs seem to be pretty well matched and they both fought until they were about exhausted, when a truce was announced and they laid off, perhaps to renew the scrap some other day, as neither one seemed to have been whipped. Mr. Farnsworth expressed the wish that his dog might get a good trouncing and then he would not be so anxious about fighting every time he ran up against a stranger. There was little fuss about the scrap as both dogs got right down to business and wasted no breath in loud talk.

Arthur Erwin, extensive wheat grower of the Jordan Butte section, was in the city for a short time on Tuesday. He has finished the threshing of his own as well as several crops for his neighbors, and while the yield was not very heavy he considers it good for the season. Mr. Erwin thinks that an average rainfall of but six inches for the year, which was the case the past two years, is not quite sufficient to mature a crop—the moisture runs out a little too soon, and regardless of the very best farming methods, crops are bound to be short. With a rainfall of from 12 to 15 inches the results would be O. K.
