What Is Needed.

HEPPNER high school this year has what promises to be a championship team among the schools which it plays. A bunch of husky, fast boys compose the team, and they have been well grounded in the fundamentals of football by Coach Finch.

It was rather a lamentable sight the handful of girl rooters, all there were to cheer the team on to victory, besides a very small number of townspeople most of whom had a personal interest in the players on the field.

Now, as we look at it, it is unfair to the hard-working, conscientious boys, who are ambitious and exerting every energy to make a name for their school—our school, one of our local prizes—for the Heppner business men and townspeople to sit idly by and not give them the proper encouragement.

Full bleachers of cheering local fans would mean to those boys in uniform not only that the community was interested in their team—yes, more than interested, wanted them to win and almost demand that they do win—but it would mean to them a deeper, more far-reaching interest.

FROM indications there is to be a heated battle for the republican nomination for United States senator and by coincidence four of the men in the contest are linked up with Umatilla county.

Next Saturday Heppner plays Condon high school on the local gridiron. Are the people of Heppner going to stay home and let the boys go into the game half-heartedly, with a oh-what's-the-difference-nobody-cares-anyway attitude, or are they going to turn out en masse filling the team with vim and an indomitable winning spirit.

WHAT THIS FARMER LEARNED ABOUT RUNNING A NEWSPAPER. Once a farmer had 1,800 bushels of wheat, which he had sold, not to one grain merchant, but to 1,800 different dealers, a bushel to each.

LAND AT HALF PRICE. Three wheat farms going at one-half price. Total, 2731 acres.

Butler Not a Candidate. THE DALLES OPTIMIST. HON. R. R. BUTLER, state senator from Wasco and Hood River counties, definitely announced during the week that he would not be a candidate for United States Senator to succeed Bob Stanfield, and that his only interest in the forthcoming election would be to help elect a strong man to the Senate from this state to take the seat of the junior senator.

tuning coming from friends who have for years recognized the fact that it is only a matter of time until he will serve his state at Washington. The publicity given by the large dailies during the past two or three months can not but help him when he decides to make the race.

Butler's decision does much to clarify the situation in regard to the next senatorial campaign. Frederick Steiwer of Pendleton is now the only strong candidate in the field from eastern Oregon, and it is probable that he should have a good chance of being elected.

Is It Fair to the Printers?

THE whole principle involved in the subject of government ownership of industry is wrapped up in the government printing and selling stamped envelopes, the only absolutely socialistic movement that the government has gone into.

On orders under 10,000 it is impossible for printers to furnish envelopes with a printed return address at a price to compete with the government. For amounts over 10,000, larger printers can produce printed envelopes far below government figures.

Bank Credit and Bank Balances

THE average balance you carry in this bank has a great deal to do with the amount of credit extended to you.

When one man wonders why he can't borrow as readily as his neighbor, granting all other factors equal, the reason is probably found in a steady, substantial average balance as against a small, fluctuating account.

It's good business from every standpoint to build up your bank balance, as a builder of credit, a bulwark against emergency, a ready capital for business opportunities.
