

Taking America Off Its Feet!

Overland Success is the Talk of the Country

Great strides ahead—conspicuous leadership—warm words of praise on the lips of people everywhere—all these things focus on one big, vital fact: Overland and Willys-Knight motor cars have the right stuff in them.

The year just ended has been the greatest of all the fifteen years of Willys-Overland history. A great year made by great cars—the greatest in looks, power, action, comfort—and money's worth!

Look at the new Overland Champion, for instance. It brings a quality closed car within reach of every purse. America's first all-purpose car—conceded to be the most useful motor car on wheels.

The price of the Champion—\$695—is a champion price. And even if the new Overland Champion did not have the many unique features that make it famous, it would still be a remarkable value at its price. It is the only quality closed car seating more than two passengers ever sold under \$700. Its greater value is typical of all the other Overland models.

The Champion and all Overland models have the bigger Overland engine—brute power with extreme economy. Leaders in economy—leaders on the road—leaders in the many satisfactions they bring to owners. See them. Sit in them. Ask for a sample of their performance.

The unlawful use of search warrants at Portland has caused Governor Pierce more trouble. Cleaver, his state prohi agent, abuses his rights it seems, and Portland citizens are sore. If Cleaver is low down enough to speak disrespectfully of our late president, he is unfit to hold the office of state prohi agent. It's a rotten conglomeration of affairs from the state house to Portland.

Probably to pave the way for a better pull with Commissioner Haynes, Dock Linville, federal prohi officer of Portland, is going to hold what he calls an educational stunt, teach the Portland police, sheriff and other officers, what kind of evidence should be at hand, etc., before making a search or seizure. He might diagnose a bad tooth and pull it, (he was a dentist before his elevation,) but to tell the police of Portland how to make an arrest, is very absurd to say the least. Yes, Dock is a humdinger, but you don't notice much activity in his department.

L. P. Davidson is in attendance at the annual convention of the county judges and commissioners which is in session at Salem this week. It's a sporty week for Davidson, as he is to attend many banquets, entertainments, auto rides to the different state institutions, picture shows, and what not. O, boy, some time!

A. B. Cochran and Miss Ellen Bergstrom, both of Ione, were married in Portland Jan. 4, 1924. The groom is the son of Mr. and Mrs. J. H. Cochran and the bride a daughter of Mr. and Mrs. Eric Bergstrom, estimable parents of the young couple. They will reside on a farm north of town. We all congratulate them.

Willys-Overland Breaks all Monthly and Yearly Records

Millionth Car Was Produced In Summer

Announcement by President John N. Willys of the Willys-Overland Co. of the production of more than 200,000 cars on Dec. 15th, 1923, capped the climax of the most remarkable year that Willys-Overland has had, a year replete with sensational success that has returned this organization to its place far in the forefront among the leaders of the motor car industry.

Mr. Willys coupled this announcement with the statement that Willys-Overland expects to break every one of its 1923 records in 1924 with a production which at present indicates a probable sale of 300,000 cars.

Willys-Overland created the first of its series of unusual announcements in 1923 with the appearance of its new Willy Knight Coupe Sedan at the New York show. The enthusiasm which this car occasioned here was duplicated at every motor display in the country and in every Willys-Overland dealer's show room, with the result that within 30 days after its announcement, almost every possible motor car purchaser in the large centers of population had inspected this unusual model.

The new product was a novelty in automobile manufacture—not a coupe, not a sedan, not a coach, but a distinctly original and individual creation in motor car design; the first of a series of refreshing departures which marked Willys-Overland's career for the past twelve months.

You should read the statement of the Bank of Ione in this issue. Note the wonderful growth of this bank's business. It is in a most flourishing condition.

From the reports of marriage licenses issued at Heppner during the year 1923, about half of the pretty brides were school marm, and about half of them knew the art of cooking. Too bad.

Lost or strayed.—One George Ritchie of Ione, who went to Portland last week and has not returned.
