Money raised for the starving Germans should be turned into American wheat and shipped to them. Not a dollar should be sent abroad.

A supreme court decision has knocked out the county tax supervision commission law. Just like all of Pierce's fool laws, but who in heck is going to pay the bills?

Moses wandered in the desert 40 years from Egypt to the Promised Land. Now aeroplanes will take one from Cairo to Jerusalem in the course of a morning and leave some hours for doing business in Jerusalem before luncheon.

New York is to have the democratic convention in that city on June 24, a few days later than the republican convention which meets at Cleveland, in order to give the burbons a chance to criticize the republican platform. At the last democratic national convention held at San Francisco some 40 barrels of whiskey was secured from the government bond warehouses by fraudulent methods for use of the delegates. Will it be repeated in New York?

It must be expected that men who will murder and rob in cold blood will have no hesitation in lying. This is the case with the soviets. Murder and robbery have become a habit of years, and now, when Secretary Hughes accuses them of things which they have done in this country, they disown the documentary proof and say these papers are forgeries. Secretary Hughes is too good a lawyer to be fooled by forgeries. He knows too well when written evidence is the truth, and the way in which he is coming back at them with the undisputed authenticity of their documents would be absolutely crushing to anybody but soviets.—National Tribune.

Basket ball this Friday night. Don't forget the big dance in Ione this Saturday night.

Having business in Portland, Laxton McMurray spent a couple of days there this week.

J. J. Chisholm of the Collins grain company, was here this week looking after business.

Ray Barnett has been absent from school for a couple of days wrestling with the "grippe."

Many farmers were in town last Saturday, there being no snow and the day like summer.

The McMurray store now receives a shipment of excellent fresh bread from Pendleton each day.

Rev. Martin's preaching at Odd Fellows hall this week has been quite well attended, converts if any, are not known.

We dislike to hear a guy howl about the cold weather when we and others know he wears B. V. D's, the year 'round.

For two weeks now the finest of weather has prevailed here.

Rare beauties and distinctions in lines, finish and upholstery—and the great mechanical luxury of an engine that *actually improves with use!* The wonderful Willys-Knight sleeve-valve engine is the same type of engine used in the finest cars of Europe. See the Willys-Knight—go for a good ride!

Press reports broadcasted from the state superintendent's office, are to the effect that the school boards in various sections of the state are complaining of their lady teachers quitting their jobs and marrying, thus causing much discord in school work. Some school boards compel teachers to sign a contract for the school term. Ione has not as yet been effected along this line, but indications point strongly to the fact that the school term cannot come to a close any too quickly for one of 'em. As 'tis leap year, it seems as though school teachers are choice picking, especially the kind proficient in cooking, bed making and tidy in household affairs. Page the farmer boy!
