## Death Stalks Where Auto Driver is Drunk

Said to be in an intoxicated condition while driving a car on the highway last Sunday morning which contained L. V. Gentry, L. L. Matlock and Guy Boyer of Heppner, their large car side swiped one driven by a traveling tobacconist a mile east of town, which badly wrecked it and might have caused the stranger's death. No punishment has been meted out to the drivers, which seems quite strange to many. Some day a bunch of these panther-juice fellows from Heppner will be gathered in and the fine and jail screws put to them to a finish.

No punishment is too severe for one who goes out upon the highway driving a car while drunk. Too many lives have been sacrificed by such drivers.

Sunday afternoon the fans arose with a mighty cheer as Walter Cochran raced for home plate for the tying score and great was the rejoicing; a moment later the roar was chilled to silence and grief when it was learned that he made the slide at the sacrifice of a limb.

Our boys play ball for your amusement and their only remuneration is the joy they get out of playing. They put their lives and health in jeopardy in going into the game and furnish their personal equipment and devote many days at practice in order to put up an attractive showing. Walter Cochran has been rendered helpless for several months and while the fans present came thru very loyally in the free will offering the Ione base ball club will appreciate any more contributions and by so doing you will show the boys that you appreciate their efforts and will try all the more to give you good clean sport. BERT MASON.
