School Unit Measure Unpopular

The INDEPENDENT was the first to take up the fight against the school unit measure as being a source of extraterritoriality and not needed at this particular time. While we were condemned by the county superintendent as being "russy" and a "fool," yet we knew we were right. Now, after seeing things and reading up, the editor of the Heppner Gazette-Times comes out and admits the unit plan is not needed, after he straddled the question for many weeks. His confession in part is as follows:

"We believe that the school system of the county should be allowed to go along undisturbed by any changes such as are proposed by the county unit, and let those other counties who have already adopted the plan, work it out and prove to us whether or not it is a good thing. Let them pay the bill for the experimenting; we have plenty of time to wait."

George Baker is a good booster for Oregon. He may be alright to bring conventions to Portland, to kiss the Mary Gardens, to "sell Oregon" to visiting tourists, to write four million dollar insurance policies on two million dollar houses, to promote \$50,000,000 Portland world fairs on a shoe-string basis at the state taxpayers expense. But we don't need him for United States Senator. Oregon needs no mountebank in the Senate. (Condon Globe-Times)

Every good republican citizen of Morrow county, society or organization, should assist in the election of Senator McNary—a man who has steadfastly worked hard for his state and has accomplished much. His election means much to the farmer and the state of Oregon in general.

Mrs. Opal Clark, a teacher in the Heppner school for the past six years, is a candidate for county school superintendent on the democratic ticket May 16th. Her name must be written on the ballot. She is a lady of high teaching ability and quite popular and she asks that you give her due consideration on primary day.

Maurice Frye, the radio man of Heppner, was here Sunday.

Slowly burning up

NOT by flames but by the slow burning fire of deterioration. Shingles shrink and work loose; siding warps; door and window casings pull apart—all because the surfaces are not insured against decay. And there is only one kind of insurance that protects YOUR home against this ever-active enemy of all property. It is paint.

Save your property while there's a chance. Save it with Rasmussen Pure Paint. Come in and tell us about your paint needs. We know we can help you.

Police Once Banned Telephone as Nuisance

When the telephone was first introduced in police headquarters in Chicago—in 1885—it was regarded as a nuisance and was soon removed to an outer office. It is hard in these days, though, to visualize a police department successfully operating without the aid of the telephone.

As a crime detector the telephone is of incalculable aid. It also serves as a crime deterrent

To The Voters Of Morrow County, Oregon.

The time has expired for the announcement of candidates for the county offices and no one has announced for the office of County School Superintendent.

I am a duly registered member of the Republican party; I have all the requirements prescribed by law for the office of County School Superintendent; I have taught in Morrow county for four years; three years at Lexington and one year as Principal of the Hardman school.

I am married and have a family of two boys and my husband is teaching with me.

If the Voters of Morrow county will write in my name on the Primary Ballot as Candidate for County Superintendent of Schools, and I am nominated, I will accept the nomination and if elected, I will qualify and give my very best efforts during my term of office to the schools of Morrow county.

Dated this 30th day of April, 1924.
