The Next President

Who was Geo. T. Cochran?

And Baker wept.

Hello, Helen Walker? You was a dear good vote getter.

The Farmer and Citizen believe in Senator Charlie McNary. And Baker wept.

Now all together—win the republican National, State and the Morrow county ticket in November. It can and will be done.

A. R. Shumway of Milton, Ore. secured the election for representative from Umatilla and Morrow counties, showing that he was a foxy old politician at that. Shumway is a strong man, having represented these two counties before and his former record has bright spots on every page.

The great Cyclopean head of the Morrow county Klan resides in Ione. He looks quite haggard and pale since he heard of Geo. Cochran's glorious defeat. Others of the tribe and their sympathizers, act as though they had the epizootic. Funny how those dizzy spells come on—we understand that the Cyclops is due to have one in June.

The INDEPENDENT made a clean campaign against the school unit measure and for Helen Walker as county superintendent. We know we were right in both instances. If we have earned our illustrious county superintendent any mental anguish, we are sorry, but we do praise her for the stand she believed was right. Helen Walker's vote was a clean cut one, also the vote registered against the unit school measure, all of which just keeps us laughing as our ribs tickle so.

NEAR EAST RELIEF ANNUAL REPORT

Sixty Thousand Children Trained; Thousands Encouraged to "Carry On."

How America rescued 250,000 people from certain death, saved 16,000 orphans from blindness, restored 14,159 orphans to home life and self support, gave medical aid to 22,000 people although twelve physicians died while fighting typhus, clothed 565,200 refugees, accomplishing these results in spite of obstacles that would have daunted anyone except an Anglo Saxon, is told in the annual report of Near East Relief which has recently been filed with Congress.

Moving 20,000 children a distance of hundreds of miles until practically all the Armenian children are out of Turkey; feeding, clothing, housing, and training 60,000 children, adjusting boys and girls at the age of 16 to make their own way as mechanics or railway shops, instructors in nursing, school teachers, skilled artisans and farmers, giving faith, hope, and courage and the will to fight back to self support to thousands of people—all these are but a few of America's achievements in the Near East last year.

A fund of nearly \$3,000,000 was raised and expended at an overall cost of \$675,000.

These and other facts are found in the annual report, copies of which may be secured on application to the Near East Relief, J. J. Handsaker, State Director, 613 Stock Exchange, Portland.

"The achievements, great as they are, give us no sense of pride," states Handsaker, "only a sense of gratitude that we have been able to do as much as we have and of regret that we could not do more. Last year at one time our Near East Relief workers were surrounded by dying men, women and children at five relief stations at once. A heart broken relief worker took down the orphanage sign from his overcrowded orphanage because there was no further room and children continued to come pleading for admission.

"Admission to orphanages was refused to 5000 children at one time. Due to lack of funds it was found necessary to discontinue child feeding in Constantinople although there were six inches of snow on the ground at the time."

At the present date there are at least 500,000 people homeless in Greece, people who two years ago were self supporting and self respecting residents of Turkey. A third of a million people are slowly starving to death although the people aided by the Greek government to the extent of its ability and by relief agencies are attempting to fight their way back through unspeakable discouragements to self support.

The report closes with urgent recommendations from 15 prominent Americans recently in the Near East that the work be continued until the children now in the orphanages are brought to self support and that the needs of the hundreds of thousands of other helpless children in the Near East be urged upon America. Among those signing these recommendations are John H. Finley, editor of the New York Times, Ex-Governor Allen of Kansas, Dr. Cavour, Secretary Federal Council of Churches, Bishop Cannon, M. E. Church South, Mrs. Alice Hegan Rice.

This little Near East refugee is one among more than a million who fled from Turkey to Greece last year.

Near East Bundle Day May 21: Near East Relief Bundle Day is Wednesday, May 21st. On this day the people of Oregon are asked to contribute outgrown, out of date, and cast off clothing for the 40,000 children in American orphanages and for the 500,000 people homeless in Greece.

It is almost impossible in the midst of our prosperity to realize that children on the other side of the world are clothed in rags and even starving to death. One third of a million people are slowly starving although the government, relief agencies, and the people themselves are doing everything possible to bring them back to a condition of self support. To such people a suit of warm clothing is often the difference between hopeless discouragement and the will to fight on. The clothes are not given away if the person applying is able to render any kind of service in exchange. The need is imperative for used garments of all kinds, coats, dresses, sweaters, stockings, etc.

Local churches are cooperating in this Bundle Day or bundle may be sent directly to the Near East Relief, 613 Stock Exchange.
