## School Teachers' Reception

A reception was given the teachers of Ione school by the patrons and high school students on Friday of last week.

The people gathered at the school house and mingled informally passing the time in visiting and making the acquaintance of the new teachers until nine o'clock, when the meeting was called to order by Mr. Louis Balsiger. The pastor of the Congregational church was called on for the Address of Welcome, and the response on behalf of the teachers was made by Miss Portia Kidwell of the high school, who expressed the appreciation of the teachers of the spirit of the occasion aroused, and their determination to make sympathetic service the goal of the year's work.

The brief program was concluded by the serving of refreshments, garnished by the inevitable Ionian spirit of fellowship and goodwill.

Mr. Nolan Paige accompanied by Mr. and Mrs. Lowe, Mrs. Laxton McMurray and Carlton Swanson, will start for Corvallis on Saturday of this week. ## Accident at Jordan

Mr. G. A. Pettys had a narrow escape from serious injury last Sunday, when his car turned completely over after running into a ditch above the Jordan Elevator.

Mr. Pettys' dog which was on the back seat of the car started to jump out, and in trying to prevent this Mr. Pettys lost control of his car with the result that it ran off the grade, looped the loop and landed right-side up.

Mr. Pettys was fortunate in being only slightly bruised and scratched, while the car was not badly damaged, one tire having been thrown off, the windshield broken and one fender smashed. We have been unable to discover the condition of the dog.

## Reparations In Operation

On the plan worked out by the American export finance commission, Germany has made her first payment of 20,000,000 gold marks.

This is an advance payment on the forthcoming loan to the German government that is being raised in England and the United States.

The loan will be used to purchase necessary raw materials like cotton, copper, and other articles used in normal German industries.

Improved European prospects and restoration of industrial tranquility come as a result of general acceptance of the nonpartisan and nonpolitical financial scheme worked out by American business men.

German industries and the German people were suffering from a general industrial and financial paralysis that will now be relieved.

As a result, there will be opened up for American investment and American products a practically unlimited field of opportunity in Our Country.

There is the greatest inducement to the largest and strongest European nations to carry out every feature of the program worked out by the Dawes committee.

Not only the British government, but the entire 4,500,000 members of British trade unions are doing everything possible to successfully carry through the reparations program.—The Manufacturer.
