Prohibition Enforcement

These are the times that try men's souls.

Thomas Paine

We understand that strenuous efforts are making for the repeal of the law providing for a state prohibition enforcement organization and referring the whole matter to the local law enforcement officers.

At the present time it seems to us that this proposal is open this objection that at the present time there are considerable areas in which the disposition of the local officers is to nullify the law and that every such political area would become at once an area of unrestrained law violation. We may as well understand to that the ensuing law violation will not be restricted to violators of the Eighteenth Amendment and the enforcement statutes, but that these will result in other infractions of the statutes and the promotion of the whole catalog of vice.

Nor will it be the willingly or willfully wet areas alone that will suffer. The effects of such conditions are far reaching and while felt most severely in adjacent district or counties, have yet an effect that reaches to every corner of the state.

We should say that at this time the wise thing for the Legisla-

ture to do would be to strengthen the State organization.

IT IS UP TO YOU

If you want to live in the kind of town
Like the kind of town you like
You needn't slip your clothes in a grip
And start on a long, long hike,
you'll only find what you've left behind.

For there's really nothing new.
It's a knock to yourself when you knock your town--
It isn't your town--it's you
Real towns are not made by men afraid

Lest somebody else gets ahead,
when every one works and nobody shirks.

You can raise a town from the dead.
And if, while you make your personal stake,
your neighbors can make one too,
your neighbors will be what you want to see--

It isn't your town it's you.

Timber Sales Increase

All yearly records pertaining to the cut of timber from the 147 National Forests were broken during the calendar year of 1923. This is the statement in the Chief Forester's annual report, copies of which have just been received by District Forester C. M. Granger in Portland.

During this period the cut for the first time in the Forest service exceeded a billion feet.

Estray Notice.

Strayed to my place Nov. 15, 1924, 13 miles southwest of Ione, one black yearling horse with no brands visible. Owner can have possession on payment of pasture bill and cost of this notice.

Whooping Cough

Whooping cough ranks third in fatalities among the communicable diseases of early childhood. This statement is made as a refutation of the prevalent belief that whooping cough is a disease of mild character and of little importance. Scarlet fever has resulted in less than half as many fatalities as whooping cough in the State of Oregon during the last ten years. Not only is whooping cough serious in itself but not infrequently pulmonary tuberculosis follows in its wake.

A vaccine, has been developed; while it seems to help little in preventing the disease, it is of considerable value in reducing the severity of the disease.

Don't trifle with whooping cough but give it expert care.
