LEXINGTON HIGH DEFEATS IONE HIGH

The Local boys still have Chance of Winning County Championship

Lexington High defeated Ione High school at Ione last Tuesday, 7 to 4, in the last scheduled game on the local ground this year.

Ione was leading until the 6th inning, but the locals made several costly errors which cost them the game. Two of Ione's regulars were out of the game on account of sickness, these boys will be in the line-up next Saturday, when Ione plays Lexington at Lexington which will make the team much stronger.

The present standings are:

	Won	Lost
Lexington	4	0
Heppner	3	2
Ione	3	2

Ione will have a chance to win the county championship, if Heppner beats Lexington and Ione beats Lexington the three teams will be tied.

"Dollar Bird"

While the term "Dollar Bird" may be used in a slang sense in America, the dollar bird is an Australian roller, prevailing blue and black in plumage. It is so called from the large roundish spot of white on its wings, shown in flight.

MENINGITIS

The fact that there were four deaths from meningitis in this state during the past week makes it necessary to call the attention of the public to the infectious nature of this highly fatal disease. Preventive measures are clearly indicated although they are very difficult to carry out.

Meningitis has come down to our time through the centuries like many of the other infections but it was recognized until 1805. Outbreaks have been reported almost every year in the United States. It is a very fatal disease as the mortality is over 50 per cent. It was a serious disease in army camps during the World War and was second only to pneumonia. Meningitis has its greatest prevalence in winter and spring. It is disease of children and young adults. The disease is caused by a double round organism which occurs in tissue cells and is called on this account the diplococcus intracellularis meningitis. There are other forms of meningitis but the epidemic form is always caused by this germ.

The Ione town team went down to defeat on the Lexington diamond last Sunday, by the score of 9-4.

MORROW COUNTY LODGES MEET MONDAY

Odd Fellows celebrate 106th Anniversary of Foundation of the Order

The 106th anniversary of the institution of the first Lodge of Oddfellows in the U. S. was the occasion of gathering of members of the order from the lodges of Morrow county at Heppner in the hall of Willow Lodge, last Monday night.

Commemorative ceremonies were rendered in the presence of a godly company of members and friends of the order.

At the close of the ritualistic ceremonies a mixed program of music, vocal numbers and extemporaneous addresses was enjoyed by the company.

The committee on arrangements had arranged for the presence of the Deputy Grand Master of the jurisdiction of Oregon, but the death of a member of his family prevented his being present.

Resolutions expressive of sympathy and condolence were adopted by the meeting and forwarded to Brother Young, the D. G. M.

A surprise feature of the occasion was the presentation of a past grand's collar to brother Head, of Cathlamet Lodge No. 87, of the jurisdiction of Washington in token of the fraternal feeling existing toward Brother Head.

Brother S. E. Notson of lodge at Lexington made the presentation address, illuminating the deeper meaning of Friendship, Love and Truth as exemplified in the practice of Oddfellowship.

The programme was followed by a short period of social intercourse and a bountiful lunch.

Don't put it off—
put it on!

IT'S mighty poor economy to postpone painting or varnishing, whether it be the inside floors and woodwork or the outside exposed surfaces. What wear and tear are doing on the inside, rot and rust are doing on the outside—slowly pulling down the value of your property through surface neglect.

To put paint and varnish on before it is needed, and not after, is true economy. Damage is under way just as soon as the surface is broken down, which is often before you realize it.

Buy good paint - it's cheapest

Cheapest because it protects the surface better, lasts longer and goes further.

Rasmussen Paint and Varnish Products are made in one of the finest paint factories in the United States—the largest in the Northwest. They are made by experts who have an intimate knowledge of Northwest climatic conditions—a knowledge gained through many years of actual contact with these conditions.

The strict maintenance of Rasmussen Quality governs every step in the making of these paints and varnishes—from the first selection of the lead, oil, and other materials, to the final sealing and labeling of the can.

There's no better paint than Rasmussen Pure Paint—we add our guarantee to the manufacturer's. Bring your painting problems to us.
