"Restoring" Made Fine Art

Professional book restorers, as a rule, are most ingenious artists, and they can produce an imitation of a page of a rare book which will deceive hundreds of collectors.

O—WELL—

A young woman, having decided that it was just at present the fashionable thing to know all about business and town industries, was being shown through a garier factory.

"Goodness!" she exclaimed, "90,000 pairs in one week! I don't see where they all go."

"Neither do I," replied the young man who was guiding her, coloring slightly.—Holmes Store News.

The Baker's Figures

A baker was accused of making 50 per cent profit.

"No," he expostulated; "I only make 1 per cent profit. See here; this costs me one cent! I sell it for two cents! That's 1 per cent profit, isn't it?"

Fortunately he is now able to make 2 per cent.—Kikeriki, Vienna.

Settling Mother

He—Tomorrow morning you will meet me at the Cozy cafe.

She—But supposing mother insists on coming with me?

He—She won't; I have invited her to meet me at the same time at River restaurant.

Set in the name, don't you, George?

"But you want me to take an interest in what happens in my den?"

"Dork, that's the fourth time you've said that!"

Trying Hard

It would even be unthinkable to me.

A worldly comendence. Without you and this thing! Your money is not a thing!

He—My darling, how can you say that it is my money you are after?

She—Something seems to tell me that a Conscience, anyhow

Fast Work in Sugar

Only five or six minutes are required to spin off and wash 500 pounds of sugar, says Nature Magazine. The products of this process are washed raw sugar and wash slump. It is the latter that is mixed with the raw sugar when it first enters the refinery for the finishing processes.

Rains Hard on Java Roads

Bounding of torrential rains cause more wear to roads of Java than traffic.

Cherish Your Friends

A friend whom you have been gaining during your whole life, you ought not to be displeased with in a moment. A stone is many years becoming a rug; take care that you do not destroy it in an instant against another stone.—Saadi.

London and Paris

At the beginning of the eighteenth century Paris equaled London in population and no doubt surpassed it at some earlier periods. The factor which England gained in India gave London a fresh source of wealth through its rich commerce with the Orient; it was then that London forged permanently ahead of Paris in the number of inhabitants.

Porcupine Annoy Railroad

The government's Alaska railroad has to fight porcupines. Rubber in any form is to the porcupine what waste paper and rubbish are to the American goat, popular for lurching purposes, and the railroad officials have ordered rubber hose in pumping stations and all rubber fixtures to be hung on high poles.

Don't put it off - put it on!

IT'S mighty poor economy to postpone painting or varnishing, whether it be the inside floors and woodwork or the outside exposed surfaces. What wear and tear are doing on the inside, rot and rust are doing on the outside—slowly pulling down the value of your property through surface neglect.

To put paint and varnish on before it is needed, and not after, is true economy. Damage is under way just as soon as the surface is broken down, which is often before you realize it.

Buy good paint - it's cheapest

Cheapest because it protects the surface better, lasts longer and goes further. Rasmussen Paint and Varnish Products are made in one of the finest paint factories in the United States—the largest in the Northwest. They are made by experts who have an intimate knowledge of Northwest climatic conditions—a knowledge gained through many years of actual contact with these conditions. The strict maintenance of Rasmussen Quality governs every step in the making of these paints and varnishes—from the first selection of the lead, oil, and other materials, to the final sealing and labeling of the can. There's no better paint than Rasmussen Pure Paint—we add our guarantee to the manufacturer's. Bring your painting problems to us.

Cut Machinery Cost In Half

The man who leaves his machines in the fields is paying, by depreciation, for an implement shed, but not getting the shed.

You can cut your machinery cost in half by prolonging its life and usefulness. You can double the life of an implement by putting it under cover as soon as you are through using it

The cost of an implement shed to protect \$2,000.00 worth of machinery is only a fraction of that sum.

We have many excellent implement shed plans to show you, and we have the right material to build just the kind and size building you require. Do not make the mistake of building before you examine our up-to-date implement shed plans. We will be glad to have you call and examine them, whether you are building now or later.
