Mrs. Maggie Bowers was very pleasantly and quite completely surprised by a number of her friends who remembered the date of her birthday anniversary and determined that it should not pass unnoted. Accordingly last

Tuesday afternoon they repaired to the hotel Ione and when Maggie had sufficiently recovered congratulations, consolation and refreshments filled a very pleasant hour.

Beggars of Rank

The "blue-gowns" was the name given to zedeenen, or beggars, who received alms from the Scottish kings, because they wore blue gowns and pewter badges. They were allowed to beg in any part of Scotland.

Pet Cat Honored

A wealthy and eccentric Scottish landowner who died some time ago left \$750 in his will for the erection of a monument to the memory of a favorite cat.

FULLY ARMORED

"Have your children a good school-teacher?" asked a motor tourist.

"Yes'm, I reckon so," replied Gap Johnson of Rumpus Ridge. "Least-ways, she gets converted all over ag'in every time there's a revival, prays like telling the Lord how to run his own business, and is so lean, lank and sharp-cornered that no man in his sober senses would try to make a mash on her."—Kansas City Star.

To the Last

A well-known author was vainly endeavoring to write the other morning, when he was repeatedly interrupted by his six-year-old son. "If you ask me one more question," the harassed writer declared at last, "I will go out and drown myself."

"Father," came the small voice, "may I come out and see you do it?"—Dublin Herald.

Between Girls

Alice—That new wrap is very becoming to you.
Grace—You think so? To my notion it hides much of my figure.
Alice—Yes, that's just the reason why.

NOT FIT TO LOVE

"You don't seem to be wasting any love on that neighbor of yours."
"Why, man, to hear that fellow talk you'd think him as important in this place as I!"

Senatorial Deliberation

In halls where legislative will proceeds in stately rhythm, "This said, 'You can't like fellows till you get acquainted with 'em.'"

An Endurance Test

The audience grew less and less until a speaker arose with only one man in front of him.

"My dear sir," began the speaker, "I cannot express the gratitude I feel for the courtesy you have shown me in remaining to hear my speech."

"Oh," replied the man addressed, "I deserve no thanks; I'm the next speaker."—Minneapolis Tribune.

The Better Way

After capturing many "firsts" for athletic prowess, a young woman decided to take up cooking lessons.

"A wise decision," declared the instructor. "Join our waffle class tomorrow. We give a medal for waffles."

But when the young lady showed up wearing all her trophies, the instructor said: "Maybe we'd better give you a waffle for medals."

TAKING RISKS

Dentist—Don't be afraid. You'll be profoundly unconscious while I'm extracting those teeth.

Patient—That's what troubles me, doc. Isn't there some safe place where I can leave my roll before I take the gas?

On the Radio

Eons, Meena, Minah, Mo—
Catch a song on the radio;
If it's squeaky, don't let go,
Tune it in a little mo'.

Practically every government on earth is a customer of a little shop in New Jersey, where the prominent ladies for engraving the patterns of banknote and similar plates are manufactured.

MCCORMICK-DEERING HARVESTER-THRESHERS

Specially Built for Hillside Harvesting!

ONCE OVER AND IT'S ALL OVER" yearly becomes the harvest slogan of a rapidly increasing number of practical, deep-thinking grain growers—men who know that low production cost is the surest guarantee of grain profits. These men are buying MCCORMICK-DEERING HILLSIDE HARVESTER-THRESHERS! First, because the McCormick-Deering is a proved success, both at home and abroad. Second, because they realize the value of dependable, close-at-hand Harvester Company service.

The MCCORMICK-DEERING Hillside Harvester-Thresher is a remarkable machine. Built for 12-ft. cut, this combination harvester and thresher cuts the grain, threshes it thoroughly, separates it from straw and chaff, and delivers it into wagon box or sacks. Straw is scattered at the rear as fertilizer for future crops.

Grain Is Delivered Direct From Sickle to Thresher

eliminating use of twine, hauling of shocks, and losses due to handling. "Once over" harvesting saves time and labor, and puts the grain in shape for immediate marketing when prices make this advisable. Grain cut and threshed with the McCormick-Deering is in every way equal to in quality or better than that cut and threshed with separate machines!

Plan Now for Harvest Time!

We suggest that you consider investment in one of these thoroughly modern and practical machines this year. Fully illustrated literature will be sent on request. Call on the McCormick-Deering dealer and learn more about this machine.
