IONE, OREGON, FRIDAY, JUNE 26, 1925

NUMBER 4

LOCAL NEWS NOTES

Mr. H. J. Biddle and wife returned from Hood River Monday. While there they visited a number of former Ioneites including Charlie Devines, J. N. Howard and Frank Akers.

Mr. Howard has a fine two acre tract in the city limits of Hood River.

The Bank of Ione will act this season as grain purchasing agent for Strauss and Co.

Work on the repairs of the Farmer's Elevator Co. began this week and will be rushed to completion.

Mr. T.G. Dennis of Heppner is in charge of the work.

Mr. Devins has a filling station and a small store ten miles out of Hood River and is doing well.

He also has a farm which is being operated by Frank Akers. Joe Bowers is working in a saw mill.

Mr. Ed Engelman and wife who have been on a tour to The Dalles have returned to their home.

Bill Brashers and Dave Head who have been seeking their fortunes in Hood River fruit fields, returned Tuesday Morning

Before coming back they visited Cathlamet, going and returning by way of Portland, Kelso, and Longview.

We extend our hands to you as we are ready for business and it is your business to know that we are a HOME INDUSTRY, composed of Home People working the betterment and welfare of our community.

Farmer's Elevator Company.

Mrs. Sam Ganger who has been quite ill for some days in Portland is now much improved. She has been at the Good Samaritan Hospital but is now at the home of a

Bill Winsor of castle Winsor, of rock creek hills, has traded his bastonial belongings on Rock Creek including a 600 acre stock ranch to Hank Dennis of Ione for the old Griff place just below Ione and 160 acres N.E. of town on the Reetman canyon road. Bill moved in Tuesday of this week and took possession of his new manor.

Mr. Dennis contemplates purchasing additional acreage and joining the Rock Creek property and going more extensively into the stock business.

Mr. Winsor has lived alone nine tenths of the time for the last nine years, and has decided to let some younger man buck the hills for a while.

He says he has been working for wages and has escaped going crazy. At least Bill says he is not more than half crazy.

Arlington Sends Invitation for July 4th Program

Arlington, June 29 (Special)

Having raised a cash subscription, the business men of Arlington are making every possible preparation for staging one of the snappiest 4th of July Celebrations ever held in that city. No other celebration has been announced in any county in either Oregon or Washington adjacent Arlington and word drifting in

here already indicates a record attendance.

Special features of the day's program will include a 24 round boxing card, open air exercises, a ball game between Condon and Arlington, parade, races, dancing, bucking contest and many special stunts and amusements.

The Compromise

Husband (to visitor)—When my little girl was born I wanted her called Pamela, but my wife wanted her called Elizabeth—so we compromised. Elizabeth, come and say, "How'd you do?" to Mrs. Brown.—London Tit-Bits.

Money is Plentiful

BUT IT IS HARD TO KEEP WITHOUT A BANK ACCOUNT

NO MATTER how plentiful money may be you cannot keep it if you fritter it away. And carrying money around in your pocket affords an ideal opportunity for frittering.

MAKE MONEY PLENTIFUL FOR YOURSELF—DEPOSIT IT IN THIS BANK INSTEAD OF FRITTERING IT AWAY.

Patriotic Parade and Exercises
Ball Game, Races, Bucking Contest, Boving Car

Come and Celebrate at Arlington

ATTENTION FARMERS!

Harvest time is here and it pays to investigate as these are STRENUOUS TIMES and pennies saved will accumulate and become dollars. Now is the time to figure the cheapest way to market your grain. Do you realize that there is a shortage of burlap? That is why sacks are commanding a good price and with the demand increasing every day the price is still going up.

That means that you will be losing some of your hard earned money by buying high priced sacks. Why should you be hampered by such an EXPENSE when it is so easy to eliminate the heavy burden by making yourself CAPTAIN and MASTER of the situation. It is easy. With just a little determination on your part the great battle will be won.

There's a reason and it's a good one and a benefit to every farmer in saving the price of his sack bill every year and by so doing he will be hundreds of DOLLARS ahead of the sack industry. That's saying a whole lot and it's a fact.

It's to your interest to study up on this matter and save dollars. The opportunity is now at hand and stares you in the face.

Let's cooperate and unite as one great body and win the battle by buying our grain at the ELEVATOR. Remember that we are the farmer's friends and at your service at all times.

McCORMICK-DEERING HARVESTER-THRESHERS

Specially Built for Hillside Harvesting!

ONCE OVER AND IT'S ALL OVER" yearly becomes the harvest slogan of a rapidly increasing number of practical, deep-thinking grain growers—men who know that low production cost is the surest guarantee of grain profits. These men are buying McCORMICK-DEERING HILLSIDE HARVESTER-THRESHERS! First, because the McCormick-Deering is a proved success, both at home and abroad. Second, because they realize the value of dependable, close-at-hand Harvester Company service.

The McCORMICK-DEERING Hillside Harvester-Thresher is a remarkable machine. Built for 12-ft. cut, this combination harvester and thresher cuts the grain, threshes it thoroughly, separates it from straw and chaff, and delivers it into wagon box or sacks. Straw is scattered at the rear as fertilizer for future crops.

Grain Is Delivered Direct From Sickle to Thresher

eliminating use of twine, hauling of shocks, and losses due to handling. "Once over" harvesting saves time and labor, and puts the grain in shape for immediate marketing when prices make this advisable. Grain cut and threshed with the McCormick-Deering is in every way equal to in quality or better than that cut and threshed with separate machines!

Plan Now for Harvest Time!

We suggest that you consider investment in one of these thoroughly modern and practical machines this year. Fully illustrated literature will be sent on request. Call on the McCormick-Deering dealer and learn more about this machine.

Office of Co. Agent,
Heppner, Oregon
Jan. 23, 1925

To Morrow County Farmers:
Just to remind you of two events of the week.

Saturday, June 27, at 2:00 p.m. the farmers of the county will meet at the wheat nursery on the old Cecil Warner farm north east of Lexington.

A large number of winter wheat seeded in February, winter and Spring barleys, oats, flax and peas are in the nursery this year. Three dates of seeding of five varieties of spring wheat and barley will give a check on this question. A representative of the Moro experiment station will be present at the meeting.

On Sunday June 28, Morrow County farmers will visit the experiment station at Moro. The start will be made at Heppner at 7:00 o'clock. Three routes are good to take at present.

One thru Eightmile and down the Blue and White trail to Olex, and the third around the highway way to Rafus or Biggs and south to Moro.

The inspection of the station will start at 1:30 p.m. The writer spent all day Monday at the station and there is more to see there this year than for several years. The new smut resistant wheats, the tillage and rotation experiments and the new hybrids in the nursery are all worth going to see.

You will not regret a visit to the station this year. The start home will be made about 4:30 p.m.

Very truly yours,
R. W. Morris

No Chance to Reach a Limit

"How many pancakes do you suppose you could eat at a sitting?" inquired Uncle George as he watched Tommy, his little nephew, stowing them away. "I don't know," said the boy. "The most I ever had a chance to eat was 21; ma won't let me try for a record."—Stray Stories.
