Excellent Reasons for This Tree's Popularity

The common elder, which flowers in the last days of May, is one of the commonest of English trees, but for so many centuries has it been planted by man for official purposes—certainly before the Romans came to Britain—that its "natural" habitat is now only a matter of conjecture. It has a variety of curious country names, most of them, like the name elder itself, having reference to the hollow stem. Such are "bothery tree" and "whusselwood," the tree being a favorite one with urchins for the manufacture of popguns. The name "Judas tree" is sometimes applied, though it rightly belongs to Sambucus siliquastræ, a southern European species. Elder drives away evil spirits, and is a charm against lightning. Rubbed on the eyes it enables one to detect witches. Elder cures toothache, warts and dropsy, and is used for poultices and to flavor vinegar, as well as for elderberry wine. Sir John Maundeville professed to have found it growing on Mount Zion.

The Vanishing Trick

A man entered a hat store in company with a little boy and asked to see some hats. He tried on several and finally selected one, the price of which was \$5.
He turned to the little boy beside him and asked:
"How do I look in this hat?"
"Like a thief," came the astounding reply.
Immediately the man turned and would have administered a correction, but the boy, seeing his intent, rushed from the store, hotly pursued by the man in the new hat.

The assistant, convulsed with laughter, picked up the purse which, in his haste, the gentleman had left behind him.

He opened it and was horrified to see that it contained five metal washers.

When it comes to a choice between home folks and outsiders home folks come first. Isn't that the way you feel about it?

This is a home institution. We are working for the good of our community, for the prosperity and development of this section, and for the individual welfare of our friends and neighbors. That has always been our policy and always will be our policy.

For that reason we like to see the money that is earned here, spent here and circulated here for the benefit of local interests.

The resources of this bank represent the deposits of those who transact business with us. And the more use they make of our facilities and the more they cooperate with us the greater service we are enabled to render them in return.
