AMERICAN RULE IS DESIRED BY MOROS

Cota Bato, Island of Mindanao, P. I.—Tributes were paid to Governor General Wood by influential Moro civilians when Carmi A. Thompson visited here as a part of his survey undertaken for President Coolidge.

Datu Piang, who was once the most powerful chief in Moroland, said the Moros desired to retain American rule and declared the confidence of the Moros in the United States grew out of the administration of the affairs in Moro provinces by General Wood. He asserted the Moros would be more satisfied if General Wood had the authority to remove Christian Filipino officials.

Colonel Thompson paid special attention to rubber growing in Cota Bato province. The province is believed to be suitable to extensive production, with thousands of acres particularly adapted to rubber growing.

CERTIFIED WHEAT A CORRECTION

Since only eight wheats; white winter, Eaton, Jenkin, Holland, Pink, Huston, Defiance and Federation—are ever certified in western Oregon by the college extension service, buyers of certified seed for planting may be sure that any lot of any other variety grown here is not certified. If they buy any other kind they take their own chances on the purity of the variety and freedom from weedseed and disease, which the college passes on in certified lots.
