LOCAL NEWS

Mrs. Virgil Warren who has
been quite sick is reported to be
better.

Mr. and Mrs. C. A. Low received
a message, Thursday morning
telling them of the death of their
youngest daughter, Julia Howe.
Mrs. Howe has been in Florida
for the past year and half for
her health.

The body of Pete Nelson was
found out close to his home
Thursday. It seems he was
troubled with heart attacks and
had tied his horse to the fence
and laid down. The people who
found him figured he had been
dead since Sunday. The coroner
was called to take care of the
body which was taken to Heppner.

The Ione town team basket
ball boys played at Lexington
last night but were defeated
by a score of 25 to 18.

At night after the evening meal is the
"Wright hour". Then read aloud to

**THE FRESHMAN
PENNANT**

The curiosity of the upper class
men has been greatly aroused
since last Tuesday night when
the Freshman pennant was put
up in the assembly room. The
next morning the sophomore pen-
nant was conspicuous by its ab-
sence from its usual place on the
wall. We are surprised to note
that the Sophomores should show
any fear of the Freshman Class.

Later in the day the upper
classmen insisted that the Fresh-
man pennant be removed and they
stated that it will not be allowed
to remain on the wall unless the
Freshmen are able to keep it there
twentyfour successive hours. This
ruling appears to be creating
more anxiety to the upper class
men than to the Frosh.

**As a progressive dairyman desiring to secure maximum profits from
any milk herd, I realize the necessity of adhering to an organized
schedule of care, feeding and handling.**

JULY

Any cow in my herd
susceptible of being a
breeder or otherwise
lacking in necessary
qualifications shall be
sold, but I shall
keep on my herd most
back to me as a profit.

AUGUST

During the hot
months, whenever pos-
sible, I shall expose
my herd with a cool,
clean, outside feeding
place, where they may
show their heads in
shade and breathe on
the breezes of land
a healthier rather than
a disease.

SEPTEMBER

A dirty condition the dirt
in my herd shall never
be in my herd. I shall
clean, cure and keep
them clean, healthy and
free from disease.

OCTOBER

The dirty or
crusty milk
must be
removed as
soon as I can.
They must carry
on from the
point beyond
which I have
no control.

NOVEMBER

Then when my
milk is better I
shall know I am
ready for my
efforts. I shall
get more milk
and more money
for my herd and
the gospel of
clean and better
milk shall spread
throughout the
land.

DECEMBER

Proper feeding is
essential. Therefore
I shall always pro-
vide a carefully
balanced ration
to my herd, as
well as a plentiful
supply of pure,
clean water.

My first step should
be the selection of a
true bred strain
& selection which
should always com-
mand great care and
good judgment.

Proper attention of dams
also will bring the cow
ready to nurse milk,
better milk and better
animals.

The comfort of the
animal is important.
Thorough cleaning
aided by peroxide
washes and under-
stand during stable
months and all over
the body when turn-
ing out in the spring
shall be part of my program.
Clean animal, clean milk with
low bacteria count.

The growth in the
number of cow test-
ing associations con-
vinces me that member-
ship to one is a good
thing. I pledge my as-
sociation full support
and co-operation.
