Writer Claims Vanity

Is Spoiling Language

Vanity is corrupting the French language, says Abel Bonnard, a writer of note.

It is vanity, he says, that leads people to prefer a new word, coined or from another language, to the old one they really know and understand.

"The public likes to be fooled," he remarks, agreeing with Mr. Barnum. He cites many words used currently to describe things long used and with names of their own, but which, for commercial purposes, like the hard-working rabbit skin in the fur business, have to be baptized anew to create that "desire to buy" in the customer.

This vanity to have the latest thing, even when only the name is new, Bonnard regards as one of the chief differences between the passing generation of conservative people and the "modernists." Many people who are "up to date," he observes, shy at expressing themselves clearly and need obscure words and phrases to portray the haziness of their own minds.

First Playhouse Located

According to a writer in the Pathfinder Magazine the first playhouse or theater in the United States was located in Williamsburg, Va. It was built in 1716 during the regime of the colonial governor, Alexander Spotswood. Charles Stagg and his wife, Mary, essentially dancers, contracted with William Leington for the theater. Some years before, in 1695, the court in Virginia acted as play censor also, having passed judgment on a performance of "Ye Bare and Ye Cub" to satisfy a complaint that the costumes were objectionable. The court found nothing objectionable, however.

Japan Develops Film Art

American motion pictures have always been popular in the Orient, and those about Indians, and the "Wild West" have been especially popular. Chaplin films also found a ready favor, but Japan is rapidly developing a film art of its own. The most popular film in Japan today is one called "Schoolmaster Matsumoto." It is an extremely simple story of the grammar grades, the climax being the rescue by the schoolmaster of one of his pupils who has fallen into the river. The film, though so simple in theme as to arouse wonder among American movie experts, ran for a full year continuously in Tokyo.

Case of Example

Charles, age five, watches closely his twelve-year-old brother Morris. As it happens Morris is fond of books, and each night he replies to father's call to go to bed: "Aw, dad, wait a minute till I finish this chapter!"

One day Charles was entertaining himself by reading a book, already known by heart, when mother called: "Charles, come here, dear, and pick up your blocks; they're scattered all over the floor."

"All right, mother," he replied in a preoccupied manner. "Wait till I finish this chapter."

Ingenious Swindle
Infested with moles, the commune of Martignyburg, Switzerland, offered a bounty of ten sous for every creature destroyed. The tails were to be produced as proof. One man brought in a prodigious array of tails. Suspicion was aroused and a scientist was asked to investigate. Use of a magnifying glass disclosed a hoax on a large scale. The man would catch one mole, shave off its hair, cut a round shoe lace into short bits, soak them in glue, then roll them in the hair. Dozens of tails were produced in this way.

Dog Mothers Pigs
Mothered by a dog, four pigs are thriving on a farm at Kilmacrennan, Donegal, Ireland. A sow on the farm gave birth to a litter of 17 pigs. About the same time the dog had puppies. The farmer drowned the puppies, so the dog adopted the four pigs from the sow.

The man who spends his money like water is supposed to liquidate his debts.
