World Has Much Desert

There are 4,831,000 square miles of
desert area in the world, according to
Liberty. This is equivalent to the com-
bined areas of the United States, Eng-
land, France, Germany, Greece, Egypt,
the Japanese empire and the Fiji
Islands.

NEW DAIRY MAID

Her Name is Violet Ray And
She Never Asks Day Off.

There's a new hired man on the
American farm. He promises to
be the best all round hand ever.
He never asks for a day off. He
never wants to go to town. He is
on the job day and night, and
ready to go to work on a moment's
notice.

Not only does he help with the
chores, but he makes hay when
the sun isn't shining. He has put
bees on a mass production basis.
He makes hens lay as many eggs
in winter as in summer. He makes
cows give the same quality of
milk when they are standing in
the barn, chewing cuds, as when
they are out in the green pasture
in the spring. He has even con-
trolled the maturity date of the
crops.

Electricity is this new farm
hand. It is showing the farmer
tricks he never dreamed of, tricks
that may afford a greater meas-
ure of "agricultural relief" than
the congressional farm experts
working overtime.

"Violet Ray", the little sister of
electricity, is this new marvel.

Violet promises to become a mod-
ern Maude Muller, and far to out-
do Whittier's Maude, as a model
dairy-maid. By simply touching
the back of Old Bossy, or "irradi-
ating" her, as they call it in the
United States Department of Ag-
riculture, Violet Ray makes the
cow think the summer sun is
shining on her back, and she
gives milk containing a high per-
centage of bone building qualities.

All Bossy has to do is to stand
at her station and allow the vio-
let rays to play on her back for
from fifteen thirty minutes each
day.

Church News

Notes of Interest to All
Local Denominations.

The regular meeting of the
Willow Branch of Christian En-
davor Union No. 17 was held at
the Christian church, Ione, Tues-
day, Sept 6th. About thirty were
present.

Officers for the coming term
were elected, a Budget Committee
was appointed and matters con-
nected with the C. E. Union No.
17 Convention to be held at Hepp-
ner in November were discussed.

The officers elect are:
President, Thelma Forbes, Ione
V. P., John Condon, Heppner
Sec. Mary Slocum, Lexington
Treas., Edw Keller, Lexington

The members of the Budget
Committee are:

Edward Keller, James Keller and
Marion Palmer, all of Lexington.

After the devotional and busi-
ness sessions, an enjoyable hour
was spent in conversation and in
playing games and, at the close,
light refreshments were served.

Chinese "Venice"

Szechow, one of the oldest and most
famous cities in China, is known as
the "Venice of the Far East," because
of the large number of canals with
which it is intersected.

Task for Science

If science is so wonderful as it
claims, why doesn't it make some ef-
fort to cross the rubber plant with a
steel plant and grow tires with
metal rims?

A Pique Me

Scientists say that among mosqui-
toes and other insect pests it is only
the female that attacks man and
beast. This is probably a parable.—

Earliest Advertising

It has been stated that the origin
of advertising can be traced to the
walls of public buildings in Egypt in
the days of Egyptian supremacy.

WEDDED

From An Old Clipping — Author Not Known

Some quick and bitter words we
said,
And then we parted. How the
sun,
Swam through the sullen mist
of gray!
A chill fel on the summer day,
Life's best and happiest hours
were done;

How proud we went our separ-
ate ways,
And spake no word and made
no moan!
She braided up her flowing
hair,
That I had always called so fair,
Although she scorned my loving
tone.
My word of praise.

An ill I matched her scorn with
scorn,
I hate her with all my heart;
Until - we chanced to meet one
day:
She turned her pretty head
away
I saw two pretty tear drops
start,
Lo! love was born
Some fond repenting word I
said,
She answered only with a sigh;
But when I took her hand in
mine
A radiant glory, half divine,
Flooded the earth and filled the
sky—
Now we are wed.

Science

THE KEY TO EDUCATION

True education not only opens up stores of knowledge but
develops the alert mind. The chief glory of modern science is
THE SCIENTIFIC SPIRIT

Higher education in the field of applied science combines
technical study with the fundamental training essential to
citizenship. Its degrees open the way not only to leadership
in "the several pursuits and professions in life" but also to a
larger community service.

Japanese Defensive Art

Ju-Jitsu, or Ju Jitsu, is a form of
athletics and wrestling, which keeps
the body in good training, and en-
ables it to meet all attacks with the
body covered only with breeches and a
loose jacket. It cultivates quick-
ness of the eye, hand and foot. It
is greatly practised by the Japanese.

"Auto's" Derivation

The word automobile was taken
from the Greek "auto" meaning self,
plus the Latin "mobilis," meaning
movable. It is of French origin and
is an adjective used as a noun. In its
first usage it was applied only to
pleasure vehicles or carriages. The
term was created to meet the sudden
demand for a word to describe the
horseless, or self-propelling vehicle.
