Britain's "Unknown"

The inscription on the tomb of the Unknown Soldier in Westminster abbey, London, is: "A British warrior name and rank unknown, who in the presence of the king of England, was buried among the kings of England, representing all the British warriors who gave their lives for king and country in the Great war."

No One's Interested

It is no disgrace to be poor. It doesn't attract that much attention.—Milwaukee Journal.

ABOU BEN ADHEM

Abou Ben Adhem (may his tribe increase!) Awoke one night from a deep dream of peace, And saw, within the moonlight in his room, Making it rich, and like a lily in bloom. An angel writing in a book of gold; — Exceeding peace had made Ben Adhem bold, And to the Presence in the room he said, "What wriest thou?" — The vision raised its head, And with a look made of all sweet accord, Answered, "The names of those who love the Lord." "And is mine one?" said Abou. "Nay, not so," Replied the Angel. Abou spoke more low, But cheerily still; and said, "I pray thee, then, Write me as one that loves his fellow men."

The angel wrote, and vanished. The next night It came again with a great wakening light, And showed the names whom love of God had blessed. And lo! Ben Adhem's name led all the rest.

THE BANKER-FARMER MOVEMENT GROWING

There are several reasons for the growth of the banker-farmer movement in Pennsylvania, William S. McKay, Chairman of the Agricultural Committee, Pennsylvania Bankers Association, has reported to the Agricultural Commission of the American Bankers Association. The cooperation and leadership of the county agents in the several counties of the state; the appointment and functioning of county chairmen of agriculture known as Key Bankers, one of whom there is in each county of the state; and the organization of county bankers associations, whereby agriculture is given consideration by all the banks, are responsible for this interest. The following table shows the activities for the year:

Project	Number of Counties
Sent young farmers to state college for special course	5
Encouraged farm shows	16
Held agricultural tours	6
Sponsored various club activities	38
Gave illustrated lectures on poultry, cow testing, and improved farm methods	1
Distributed purebred livestock, chicks, and disease-free potato seeds	18

"There is probably no class of business men that has a greater opportunity for helpfulness than the bankers in this movement," declares Mr. McKay. "It builds up a substantial community which makes for better

American Olive Growing

The region in which the olive may be successfully grown for the commercial production of fruit in the United States is not as great as for most frost-hardy fruits, and has been confined to portions of California and Arizona, although the trees will live and bear some fruit in portions of all the southern tier of states of the country.

Flax Exhausts Land

Any other crops may be planted on the soil where flax has been, but there should be an interval of at least seven years' duration before again plowing the land in flax.

Oldest Clock

The oldest clock in the world wrought in 1492 A. D. by an unknown artisan at the court of Philip the Good of Burgundy, and valued at \$2,000,000 has been brought to the United States for a museum exhibition.

Borrow Heads

Owing to the strict opposition by the Dutch to the custom of head hunting, the Burmese tribesmen, who once deemed fresh human heads necessary for many tribal rites, now borrow the heads when taking from their neighbors.—Philadelphia Inquirer.

No Dentist Needed

Besides appearing most ferocious sharks' teeth show how nature takes care of her children. The shark has several sets of teeth which grow in as needed to replace those broken or knocked out when it butches its prey.

Word Coined by Scientist

The word "protoile" was suggested by Dr. William Caudle in 1881. In an address to the representatives of the British association he says: "Let us picture the very beginning of time before even the sun himself had evolved from the original protyle. We require a word analogous to protyle to express the idea of original primal matter existing before the evolution of the chemical elements."

Names on Ancient Books

Serving the same purpose as the lettering on the back or front cover of the modern book, the manuscript rolls of early Egypt and Greece had projecting labels of papyrus or vellum, on which the title of the work was written. These labels hung outwards as the rolls lay on the library shelves or stood in the brackets which served as portable bookcases.—G. L. L.

Fair Uniting Countries

Because of the great interest taken by Cuba, Porto Rico and Haiti in the annual provincial fair at Santiago, Dominican Republic, the event is to become Inter-American in scope. It is believed that the little fair will attract other Caribbean countries, and result in uniting that area more closely in political, social and economic relations.

Clothes for Fate

Kismet is an oriental word meaning fate or destiny. It is the Turkish form of the Arabic "qismat." Muhammadans use "kismet" to express the idea that everything which occurs in the world is preordained and inevitable. In other words, "kismet" expresses a philosophy of preordination and fatalism.
