NEW PONTIAC

Pontiac, Mich., Dec. 3. — A Pontiac Six, new in practically everything but name shortly will appear on the market it was announced here today by the Oakland Motor Car Company. A bigger, smarter, more powerful and luxurious Pontiac bringing big car features within the price range of the small six was promised by the Oakland Motor Car Company. This announcement comes near the close of the most successful year in the Company's history with an estimated total output for 1928 of close to 275,000, forty per cent above 1927.

BRAND NEW PONTIAC IS COMING!

IN KEEPING with its policy of progress, Oakland has for months been working on a new Pontiac Six. It is more than a refinement of its famous predecessors. It is essentially a brand new car from beginning to end.

Details will be announced later. But this much can be said now. This new Pontiac will represent an even greater innovation today than the first Pontiac represented in 1926! Without departing from the low-price field, it will bring to this field finer elements of style, performance and luxury never before provided in a car so inexpensive to buy!

Bloody Century

Some nation in Europe has been at war on an average of every second year since 1450, but the Nineteenth century had more than its share of these wars. They were also much more costly and destructive.

Oh They Came!

A particularly stout lady attired in a very tight riding habit was taking her morning canter in the flow, accompanied by her husband. Suddenly a button, unable to stand the great pressure, flew off the lady's coat.

"Dear, dear," said the lady fretfully.

"What makes these buttons come off?"

Her escort quivered with excitement, for he had thought of something fun.

"Ahem! Force of habit, my dear," he grinned in reply. —London Answers.

Times Have Changed

"Ah," sighed the old-time actor, as he came back from a last appearance on the stage. "There was a time when I had the whole audience sobbing every time I recited that pathetic poem. Now they sit there like a lot of mummies!"

"No," said the stage hand, "the only way you can make a modern matinee mob turn on the water tanks is to make them peep onions during the recital of your sob stuff or spray 'em with tear gas." —Cincinnati Enquirer.
