

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia! When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescription product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1873.

PHILLIPS Milk of Magnesia

Human "Bombs."

Target practice with men acting as "bombs" is popular among English aviators. Large targets with bulls, ladders and other, are drawn on the ground, and the object is to drop into the center. When each pilot has attained the position he considers nearest correct, he signals to a companion, equipped with parachute, who immediately leaps clear of the machine and tries to score a bulls-eye.

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope, but go to the nearest drugstore and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois for free trial bottle.

TEST OF THE EDUCATED MAN

"The educated man," says Dean Inge of England, "is a man with certain subtle spiritual qualities which make him calm in adversity, happy when alone, just in his dealings, and rational and sane in all the affairs of life."

But how, we would query of the good dean, does he act when company calls along about bedtime?

True Enough.

Some one remarked to Shaw, on seeing a lot of wealthy loungers hanging around a London hotel, "These rich people get me! What's the use of having money if you don't know how to enjoy it?"

"But why fret about it, old chap," returned Shaw. "Are you any better off? What's the use of knowing how to enjoy money if you haven't any?"

GOOD IN ANY ROLL

"That actor does pretty well in that role." "A ham actor ought to do pretty well in any roll."

A Full Record.

"Though many things she's left undone since we've been wed, I don't believe," said he, "she's left A thing unsaid."

A Good (K)night.

"Don't you think that if I had lived in the olden days I would have made a good knight?" asked the young man who had bored her for hours describing a moving picture he had seen.

"I don't care so much what you would have been then," observed the girl, wearily, "but you might try to see what kind of a good-night you can make now."

Just a Neighbor.

Real Sensation.

"Well, what's the most startling piece of news in the paper this morning?" sarcastically asked the wife of her husband, who had read all through the breakfast and her chatter. "An account of a man who is suing his wife for divorce for not talking enough," he snapped.

The Paradox of Pessimism.

Andy—Ironsides is a hypochondriac. Mac—What's a hypochondriac? Andy—A person who feels better when he feels worse.

The Porter—Lady In No. 4 wants me to tell her when she reaches her "desolation." I reckon she means destination.

Wife (at top of stairs)—Explain yourself. Where have you been till this hour? Husband—My dear—er—stop me if you've heard this one—

Neal's Mother Has Right Idea

Within a few months there will be no more feverish, bilious, headachy, constipated, pale and puny children. That prophecy would surely come true if every mother could see for herself how quietly, easily, and harmlessly the bowels of babies and children are cleansed, regulated, given tone and strength by a product which has proved its merit and reliability to do what is claimed for it to millions of mothers in over fifty years of steadily increasing use.

As mothers find out from using it how children respond to the gentle influence of California Fig Syrup by growing stronger, sturdier and more active daily they simply have to tell other mothers about it. That's one of the reasons for its overwhelming sales of over four million bottles a year.

A Western mother, Mrs. Neal M. Todd, 1701 West 27th St., Oklahoma City, Okla., says: "When my son, Neal, was three years old he began having constipation. I decided to give him California Fig Syrup and in a few days he was all right and looked fine again. This pleased me so much that I have used Fig Syrup ever since for all his colds or little upset spells. It always stops his trouble quick, strengthens him, makes him eat."

Always ask for California Fig Syrup by the full name and see that the carton bears the word "California." Then you'll get the genuine.

Coming Football Star.

The football squad at York (Maine) high has a candidate who, for size, would look pretty good to some of the college squads. He is Carleton Moulton, an aspirant for center. Moulton is fifteen years old and tips the scales at 272 pounds. He is more than six feet tall and is a freshman.

HUSBAND DISTRIBUTES BOOKLETS

Wife Tries Compound

Every year the Pinkham Medicine Company distributes about 30,000,000 booklets from house to house.

Mr. Ted Hinzman does this work in Los Angeles, California. His wife writes: "It was in these little booklets that I read about so many women being helped by the medicine. I thought I would give it a trial and I can truly say that it has done me good. My neighbors and friends ask me what I am doing to make me look so much better. I tell them that I am taking Lydia E. Pinkham's Vegetable Compound."
