I heard the bells on Christmas Day

Animals' Vocal Range

Horses are superior, cows are tenors, sheep are contraltos and pigs are basses, says Mr. Geoffrey Shaw, English musician. He so classified the animals' "voices" during a lecture to the members of the summer course of music at Oxford. He first asked his audience to make the classification, but none could do so.

Spirit "Fak"

Primitive natives in Sumatra believe that the spirit of a dead tribesman returns a few months after death for one last night of celebration with his friends, and magicians help along the belief by manipulating a wooden dummy on strings in the semidarkness.

True Pessimist!
"The real pessimist is he who thinks everything is as good as it can be," says a prominent man of science. It is interesting to make a surmise as to the mental processes which brought the scientist to such a conclusion. Perhaps he was thinking what our condition would be today, were it not for the hopeful men who labored to improve upon the past for the benefit of all mankind. No wonder he declares that the real pessimist is he who thinks everything is as good as it can be.

Hard Chewing Beneficial

Only a complete change of environment and diet can save most people from the advisability of three or four dental cleanings daily. If we lived on hard foods we might have molars and bicuspids that were naturally clean and resistant. The more apples and crusts we eat, the more closely we approach this happy state. And the harder and longer we chew on something we can grind up fine, the better for gums and jaws.—Eileen Bourne in Liberty Magazine.
