## When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night you find your very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks, Castoria is about the only thing you have ever heard doctors advise giving to infants. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

### Stockholm's Parks

The city of Stockholm has owned its parks for nearly 500 years, or since 1436, and the national government therefore has no jurisdiction over them. This has been brought up by Carl Lindhagen, mayor of the Swedish capital, in connection with a request from the state that the city pay rent for certain parks. In opposing this demand, the chief executive referred to a deed dated 1436 which tells of the award "for all time to come as a token of gratitude for the faith and service the people of Stockholm have shown the government."

### No Place for Middle

#### Aged Man in Business?

Sociologists are debating ways and means for caring for the middle-aged as well as the aged, and newspapers in the large cities are printing many complaints to the effect that men past fifty are denied employment solely because of their age. The problem of the unemployed man of fifty is becoming serious.

Along with this condition it is interesting to note that the board of managers of the New York Association for Improving the Condition of the Poor reports that between 15 and 20 per cent of all persons more than sixty-five years of age receive some support from others. It is also stated that in 1850 2.8 per cent of the population was more than sixty-four years of age while in 1920, due to the generally lengthened span of life, figures were 4.6, an increase of 64 per cent in seventy years.

The percentage of old persons is expected to increase steadily for some years. With employers refusing to hire men and women past fifty what will become of these persons? Is it a kindness to increase the length of life if old age must be spent in poverty?—Miami Herald.
