OUR FACILITIES AND YOU

THE generation and distribution of electricity is a pro-
cess of amazing ramifications and requires costly equipment
plus a large staff of trained men and women. A light and
power company must be prepared at all times to deliver any
amount of electrical energy.

Our power plants and the network of wires carrying elec-
tricity to consumers were constructed with an eye to the
future. Accitions to equipment are constantly being made.

We have a definite and increasing obligation to our
customers. Not only do we provide service, but are prepared
to assist in employing that service for increased comfort in
every room in your home and for increased efficiency in your
factory or office.

We are prepared to meet all needs for Electric service.
