Engine Half a Block Long
Designed especially to burn a grade of coal of comparatively low-heating value, a huge engine constructed for the Northern Pacific railway is 125 feet long, weighs more than 1,000,000 pounds and has 34 wheels, including the 12 on the tender, says Popular Mechanics Magazine. An interesting feature is the mechanical stoker which will crush, deliver, and distribute about the huge firebox, more than 22 tons of coal an hour. It is expected that the locomotive will be able to haul, in one train, cars that are now made up into two.

Monkey Loses a Home
A Detroit woman going south wanted to give her pet monkey to the Detroit Zoological park. She called the director but when John T. Millen said he could not promise a daily "hot water and soap bath" the monkey owner indignantly hung up the telephone with the remark, "Cleanliness is next to Godliness even for a monkey."

LIFE'S LITTLE JESTS

THREE SONGS

A teacher asked her pupils to bring to school objects that represented songs. One boy brought an apple, another a banana, and a third an old whip. "What song does the apple represent?" asked the teacher. "In the Shade of That Old Apple Tree." "What does the banana represent?" "Yes, We Have No Bananas." "And what does the whip represent?" "Thanks for the Buggy Ride.—The Progressive Grocer.

Prisoner—I thought she was my wife.

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—over colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

No Poverty in Norway
Though a relatively poor country, Norway has virtually no poverty, although there is no great wealth. About 95 per cent of the farmers own their land, but the farms are generally small. A unique law makes it possible for a farmer or his descendants to repurchase his property within a certain time limit, if circumstances have forced him to dispose of it.

Indian Child Burials
Two child burials have been uncovered in the prehistoric Indian ruins of the Wupatki National monument, in Arizona. Jesse C. Clarke, custodian of the reservation, who made the excavations, reports that in one burial a cradle board was lying over the body, which bore a shell necklace and was accompanied by three pieces of pottery.

In the other burial the cradle board was underneath the body. Four pots were found in it. Both burials had been wrapped in matting, but moisture had crept in and spoiled it so that only a small piece could be salvaged.

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept.
