Grange News

Those who attended Grange, on June 22, missed two splendid reports of the State Grange Convention held recently at Myrtle Point in Coos County. Mildred Morgan, Alternate Delegate from Willows Grange reported on the convention activities, while Veda Eubanks reported on the trip made by motor. Both were unusually good reports and the grange feels well repaid in being so well represented.

Mr. Cool, Pomona delegate, reported briefly on committee work of the convention. A more complete report will be given by both Mr. and Mrs. Cool, at Rhea Creek, July 6th.

The Willows Grange will enjoy one of her social evenings, July 13th, at which event grangers and invited guests will be admitted.

SERIOUS FIRE SUNDAY NIGHT

Ione has been having a series of fires beginning at 5:30, Monday afternoon when Mrs. J. P. O'Meara returned from her shopping to find a small fire in her barn. It proved to be a stubborn little blaze and she and Mr. O'Meara had several bouts with it before they were sure it was extinguished and it was safe to retire. At 11:30, Monday night, the fire bell rang calling the fire fighters to a larger and more disastrous fire. This was a building in the part of town on property owned by W. E. Ahalt. It was a good sized frame building used by Mr. Ahalt to house his pumping plant, wood, tools, etc. and was a complete loss. It is reported there was no insurance. Mr. Ahalt estimates his loss at about \$700. At 3:15 the fire here broke out afresh but was extinguished by those living near without turning in an alarm. Shortly before four o'clock the bell again sounded. Mr. John Bryson's barn was on fire and in a short time was burned to the ground. The building was not of much value, having been built 31 years ago by Mrs. Bryson's father, Mr. Wood. The frame was of logs that Mr. Wood had brought from the mountains. While this fire was burning another fire started up in the O'Meara barn, but was put out without much trouble. At 8:30 the alarm again sounded. This proved to be a small fire at the barn on Third street, owned by W. R. Morgan. It is not known how the first two fires got started but the three following fires were caused by flying sparks from the Ahalt and Bryson fires.

For That Tired Feeling

Packaches and footaches and headaches are responsible for most of the wrinkles and worry squints and tired listless faces among women. Body aches give that hard edge to the voice and make women feel forty-five when they are barely past thirty. Many of the tired aches could be avoided if women would take a little less care of their houses and a little better care of themselves.—Farm and Fireside.

City Hall Notes

The regular session of the Ione Common Council was held Tuesday evening. The roll call showed all present except Councilman L. P. Davidson who, however, came in later.

No claims or communications presented. It was suggested that it might be expedient to purchase two 50 foot lengths fire hose to replace leaky hose. Discussion developed the fact that the leaks were quite small whereupon the matter was dropped.

Reference was made to rubbish and other fire hazards at the town and the Marshal was directed to make a thorough general inspection and to order the removal or other abatement of all fire hazards he might find. He was also instructed to rigidly enforce the curfew ordinance.

The old barn on Third street was cited as an extraordinary fire hazard and it appearing that this building had been previously been condemned, the City Recorder was ordered to notify the owner, Mr. Lewis Ball that the barn be removed at once. The matter was then referred to the committee on health and police for such further action as they might deem necessary.

At this moment Mr. V. C. Peterson addressed the Council on the subject of public dances and asked what the attitude of the Council would be in case he and his brother should rent Legion hall and give a series of dances through the summer. The matter was discussed at some length but no action was taken.

Dr. Clarke of the Clarke Optical Co., 202 and 203, Merchants Trust Bldg. 6th and Washington Sts., Portland, Ore. EYE SIGHT SPECIALISTS, will be in Ione all day and evening, Sat., July 13th at the Ione Hotel. SEE HIM ABOUT YOUR EYES.

Term for High Water

The Naval observatory says high water occurs 50 minutes later each day on an average. High water follows the transit of the moon across the meridian of any place by a certain interval, which is known as the "establishment of the port." This interval is constant for any one place, but differs widely from place to place.
