**Peace on Earth Belief of an Old French Race**

The Basques of the Pyrenees section of France are an old race which has outlived the Roman empire, the Dark ages, feudalism and monarchy. They are thrifty, hard-working farmers and fishermen with a simple system of very local democratic self-government. They are strong, simple, warm-hearted, physically sound and comely, and above all life-loving. While other races and social organizations around them have risen and fallen, they have never had a king, a tyrant, an aristocracy or a revolution. They seem to be very religious, and although they are hot-blooded and impulsive, they have never taken a single aggressive step against a neighbor in warfare.—Ray F. Hendrix.

**Strong Stimulant**

The cocoa plant of South America is a shrub with small, light green leaves which have a somewhat bitter taste. The natives powder these leaves and mix them with lime to form what they call "ypacu." The stuff is chewed and is an amazing stimulant. With a supply of this in a pouch, the South American Indian will walk for two or even three days on end with out food.—Boston Transcript.
