

Beautiful View of the Great Coolidge Dam

Here is a remarkable view of the new Coolidge dam on the Gila river in the heart of the San Carlos Apache Indian reservation in Arizona. It is the first multiple dome dam ever built. It impounds 1,200,000 acre-feet of water to irrigate 100,000 acres of desert land, generates 15,000 horse power of electricity, and provides a great bridge for the transcontinental automobile highway.

The KITCHEN CABINET

(© 1929, Western Newspaper Union.)

"The worry cow might have lived till now if she had saved her breath. But she feared her hay wouldn't last all day so she choked herself to death."

MIDSUMMER FOODS

Now is the season for garden parties, porch teas, lawn receptions and all sorts of charming functions in which one's friends come to greet one another. For food to serve at parties where guests are entertained in numbers the food must be served in convenient form, easy to handle. The following is a salad combination which is good and not hard to manage:

Chicken and Vegetables in Aspic.—Add to one quart of good, chicken stock one bay leaf, two or three cloves, one sprig of parsley, one slice of onion, no stalk of celery, one-half teaspoonful of peppercorns and cook ten minutes. Strain and add one box of gelatin softened in one cupful of cold water, add the juice of half a lemon and the unbeaten whites of two eggs. Boil two minutes, then let stand to clear—twenty minutes. Strain through a double cheesecloth. Pour into a mold set in cold water, enough to cover the bottom of the mold. When firm add cooked vegetables, drained well, cut into any form. Peas, green pepper, beets, make good color combination; add a layer of sliced chicken, more of the aspic and layers of vegetables and chicken until all is used. Chill and serve cut into slices. Garnish with lettuce and serve with mayonnaise. This will serve twenty.

Piquant French Dressing.—Use one pint of salad oil, two-thirds of a cupful of lemon juice, two tablespoonfuls of sugar, one teaspoonful of salt, one quarter teaspoonful of paprika with a dash of cayenne and one can of tomato soup. Beat well before using. Put into a mason jar and set on ice.

Strawberry Mousse.—Take six cupfuls of crushed fruit, four cupfuls of sugar, the juice of one lemon and two quarts of cream. Stir the fruit and sugar together and let stand one hour. Add the lemon juice and then the cream beaten stiff. Pour into melon mold or other fancy molds, pack in equal parts of ice and salt and let stand four hours. This serves thirty. A dainty chapeau and easy to serve is one prepared thus: Prepare very small cream puffs—just enough for a mouthful—fill with any prepared mixture one desires—caviar, or seasoned chopped egg with anchovy.

Some Tasty Salads.

The young tender cabbage should be used freely for salads. It is most appetizing shredded very fine, bruised slightly with a potato masher, seasoned with salt and dressed with cream and sugar. If the cream is sweet add a dash of vinegar; if sour, none will be needed.

New Salad.—Shred a small cabbage as for slaw, blend with it plenty of fresh grated coconut and add a few blanched shredded almonds. Serve with mayonnaise, adding plenty of cream and garnish with strips of fresh green pepper. Dot with paprika and serve well chilled.

Westchester Club Salad.—Use one-half of a grapefruit, one orange, one cupful of pineapple, one apple, one banana, one cupful of white grapes and one-half cupful of celery. Cut all into uniform pieces. Seed the grapes and cut into halves; free the grapefruit and orange pulp from the membrane and serve well blended with a french dressing as follows: Take one-fourth cupful of olive oil, the juice of a lemon, one tablespoonful of sugar, one teaspoonful of salt and one-half teaspoonful of paprika. Let stand one hour. Drain and arrange on lettuce with one-half cupful of hulled raisins and top with a spoonful of mayonnaise.

Conant Salad.—Take one canned pear, four tablespoonfuls each of chopped onion, sweet cucumber or watermelon pickles and cheese. Chop four hard-cooked eggs reserving the yolks of two, put these through a ricer and sift over the salad as a garnish. Use any desired dressing with the salad.

Somerset Salad.—Take one cream cheese, moisten with cream and add one-fourth cupful of pecan meats; shape into balls. Remove the skins from white grapes, take out seeds and insert a bit of red pepper in each where the cut is made. Arrange orange or grapefruit sections (with membrane removed) on lettuce, the grapes in the center and the cheese balls well placed. Serve with a french dressing.

Salad Dressing for Fruit Salad.—Take one-half cupful of orange juice, one-fourth cupful of lemon juice, two tablespoonfuls of butter, two tablespoonfuls of sugar, two tablespoonfuls of flour, add one-half cupful of sugar, and the fruit juices.

Blackstone Dressing.—Take four tablespoonfuls each of mayonnaise and whipped cream, two tablespoonfuls each of chili sauce, tomato catsup and vinegar. Add finely chopped Roquefort if desired.

Relics of Bronze Age

Dug Up in Holy Land

Numerous objects dating from the Bronze age were excavated from beneath the floor of a limestone cave north of Jerusalem by Prof. William F. Bode, dean of the Pacific School of Religion at Berkeley, Calif., who is obtaining important data relative to the character and customs of the pre-Semitic inhabitants of Palestine 3,000 or 3,500 years B. C.

The cave from which the pottery and other articles were taken has been buried since the days of the Hebrew prophet Amos, who lived about 750 B. C. Pieces of pottery, jar handles, stamps and seals bear the name of the deity "Jah Jahu" and were probably made by the Canaanites long before the days of Abraham. Traces of a city with a great wall and projecting towers have been unearthed near the site of Tel Naneh, which Professor Bode believes is the Mizpah of the prophet Samuel.—Pathfinder Magazine.

Too Bold

Elnor Glyn, the novelist and scenario writer, said at a wedding breakfast in Los Angeles:

"Young bridegrooms should be thrifty; they should look the future boldly in the face; yet they should always decline such an offer as Jones, the Jeweler's.

"A young man went slowly into Jones' and blushed and said bashfully that he'd like to buy a ring. Jones beamed on him and answered:

"Here, young fellow, right here in this tray is the very thing you want—our famous combination three-piece set comprising engagement, wedding and teething ring combined."

Under Palestine's Sands

One of the objectives of Prof. Flinders Petrie, in his excavation work in Palestine is to discover the headquarters of King David's army. He hopes to reclaim the military despatches recording the victory of the Israelite arms over the hostile tribes who wished to remain in possession of the land flowing with milk and honey. After what he and others have found in Egypt, anything seems possible. The civilization of the shepherd-kings may become as familiar to us as that of the Pharaohs is. He might even discover more Psalms.

Self-Winding

Herman E. Meyer, a Jersey City barge hand, claims to have discovered a method by which a spring may be made to wind and rewind itself indefinitely. The spring is first supplied with power by winding and then started. As one side of the rotating apparatus unwinds, the other side is wound automatically. The same principle, he says, may also be applied to other forms of power production. His device has been patented.

Eye Specialists for Pets

Eye specialists for pets have appeared in London and are kept busy. All sorts of pampered animals are treated. One of them was an Angora rabbit, which was operated on for entropion, or inverted eyelids, a condition which causes eyelashes to be continually rubbing the eyes. A chow was also relieved of two years' suffering of this kind.

Seek and Ye Shall Find

Mrs. Pack—Well, we've been married 20 years and I've found nothing but trouble.
Mr. Pack—Have you been looking for anything else, my dear?—Boston Transcript.

A Give-Away

"I don't wonder the new gardener does not know his work. He has been a clerk."
"How do you know?"
"He wanted to put the hoe behind his ear."—Faun (Vienna).

Identified

"Which of the ladies on the left and right of the scarecrow is Aunt Martha?"
"The one in the middle."—Flegende Blaetter, Munich.

Resourcefulness

"Oh, Peach, didn't you see that button on the ol' pyjamas?"
"No, Phum, I couldn't find a button, so I sewed up the hole."

One Point of View

All wants, beyond those which a very moderate income will supply, are purely imaginary.

Russ Ball Blue goes farther, makes clothes whiter than liquid Blue. Large package at Grocers.—Adv.

Though flattery blossoms like friendship, yet there is a vast difference in the fruit.—Socrates.

The informative double has added itself to the eternal triangle as the cause of family trouble.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

What's Left!

Customer—Can you vouch for this table as coming from the fifteenth century?
Antique Dealer—I certainly can't, why, it was so old that I had to put four new legs on it and a new top.

To Cool a Burn

Use Hanford's Balsam of Myrrh

Money back for first bottle if not suited. All Dealers.

Same Thing

Optimist—Cheer up, old man. Things aren't as bad as they seem to be.
Pessimist—No, but they seem to be.
—Vancouver Province.

In order to keep mankind from swimming and drowning in honey, the bee has a sting.

You can't buy a good brand of popularity at bargain rates.

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia! When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptional product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1873.

Western Newspaper Union

(A Delaware Corporation)

Fifteen-Year 6% Convertible Gold Debentures

Dated August 1, 1929

Due August 1, 1944

Interest payable February 1 and August 1 without deduction for normal Federal income tax not exceeding 15%. The Company will agree to refund to holders, upon proper application, any State income tax not exceeding 5% per annum, and in Massachusetts not exceeding 6% per annum, and personal property and security taxes in certain States as provided in the Trust Indenture. Redeemable at any time as a whole or in part on 60 days' published notice at 105 and accrued interest. Coupon Debentures in interchangeable denominations of \$1,000 and \$500 registerable as to principal only. Central Hanover Bank and Trust Company, Trustee.

Debentures will be convertible, at the option of the holder, at any time prior to maturity, or up to five days prior to earlier redemption, into Common Stock at the rate of 40 shares for each \$1,000 principal amount.

H. H. Fish, Esq., President of the Company, summarizes from his letter to us as follows:

BUSINESS

Western Newspaper Union, successor to a company of the same name and a business founded in 1865, serves more than 10,000 daily and weekly country newspapers, maintaining fully equipped plants in 36 key cities of the United States from California to Massachusetts.

The Company supplies these newspapers with ready printed inside pages or with columns of prepared plate, containing various feature stories, serials and special articles selected by the newspaper publishers; places national advertising in their papers and prepares cuts and copy for local advertising campaigns.

The Company also does a large volume of commercial printing, prints in their entirety various magazines and trade journals and is responsible for the mechanical production of many of the feature services of The Associated Press.

FINANCIAL

During the past 20 years net profits of Western Newspaper Union, after all charges including depreciation, but before Federal taxes, averaged more than \$680,000 annually, and in no single year were such net profits less than \$450,000.

Net profits after depreciation, but before Federal taxes, for the past 4 years, as certified by Messrs. Arthur Andersen & Co., after eliminating operations of the paper mill, which is being sold coincident with this financing and after other adjustments arising from the reorganization as stated in their certificate, were as follows:

1925	\$741,336
1926	955,583
1927	571,249
1928	765,825

Such net profits as above have averaged about \$758,448 annually, and for the year ended December 31, 1928, amounted to \$765,825, equivalent to more than 3 times the annual Debenture interest requirement.

After deducting from such net profits in 1928 Debenture interest requirements, Federal Taxes (parent company) at 12% and Preferred Stock dividends, the balance amounted to over \$352,000, or about \$2.35 per share on the 150,000 shares of Common Stock to be presently outstanding.

The net assets of the Company, available for these Debentures, based on the balance sheet, as at April 30, 1929, adjusted to give effect to the present financing, including the sale of the paper mill, were in excess of \$8,500,000.

MANAGEMENT

Since the death in 1916 of the former owner, George A. Joslyn, his widow and other heirs have owned the majority of the Common Stock of Western Newspaper Union, control of which is now being acquired by the executives who have been responsible for its successful operation during the past 13 years.

All legal details will be based upon by Messrs. Troney, Harding, Sherman & Rogers of Chicago and by Messrs. White & Case of New York.
