Three Months.....0.50

Entered as second class matter at the postoffice at Ione, Oregon, under act of March 3, 1879.

Friday, Aug. 2, 1929.

ADDITIONAL LOCAL

Continued from Pg. 1.

Mrs. Shippy has received word that her sister, Mrs. Della Corson reached Chicago safely, Saturday morning and that she and her son and daughter in law started on their motor trip, Sunday morning. They had visited the old home at Warrensburg, Mo., and were headed for the Ozark mountains.

Several of the farmers on the north side have finished harvest.

The cutting of the second crop of alfalfa was under way on some of the ranches below town, last week, and this week will find the creek ranchers above town making hay.

Mrs. Bert Mason was hostess at a little luncheon, Thursday of last week. Her guest were Mrs. Lieualien, Mrs. Cotter and Mrs. Lundell. The Ladies spent a very pleasant afternoon playing bridge.

Mrs. Guy Ca on and two children, of Arlington, arrived last week. They are guests in the Bryson home.

RADIO ENTHUSIASTS WELCOME NEW TUBES

Radio amateurs have shown a quick response to the new rugged rectifier Radiotron with a low and constant voltage drop which just has been put on the market by the Radio Corporation of America. The new tube, Radiotron UX-245, is of the hot-cathode, mercury vapor type, and the makers assert it is establishing a new standard of performance for the amateur transmitter operating with a rectified plate supply.

A four electrode, screen grid tube, with new features.

It is ample in current capacity and, in half or full wave circuit connections, is especially suited for supplying the transmitter with stable rectified plate voltage—key up or key down. It operates at relatively low temperature, and no starting mechanism is required.

Two other interesting new tubes which just have been introduced by the Radio Corporation are Radiotron UX-245 and Radiotron UY-224. Radiotron UX-245 is a power amplifier tube for supplying large undistorted output to the loud speaker. It is capable of delivering a power output equal to that of the UX-210, but at a plate voltage not exceeding 250 volts. The tube can be used only with apparatus especially designed for it and is intended for use in the last audio amplifying stage of power line operated sets which supply not more than 2.5 volts to the last audio socket, as well as proper grid and plate voltages. The filament is of the coated ribbon type, which assures great strength and high emission.

Radiotron UY-224 is a four electrode, screen grid amplifier tube embodying a 2.5 volt heater element which permits operation from alternating current. It is recommended for use primarily as a radio frequency amplifier in circuits especially designed for it, but it may be used also in special circuits as a detector or as an audio frequency amplifier. The fourth electrode, the screen, in the new UY-224 makes possible the attainment of very high and stable amplification per stage.

Sacred Stone of Erin Lodged in Cathedral

The ancient Clogh-Oir stone from which Clogher, Ireland, is said to have derived its name, has, with the consent of the bishop of Clogher, been placed in the vestibule of St. Macartan's cathedral, to preserve it from the weather. The Clogh-Oir stone is said to have been one of the three sacred stones of Erin, the others being the Lia Fail, or Stone of Destiny, which rests under the coronation chair in Westminster abbey, and the Crom Cuaigh, which is supposed to have bowed before St. Patrick. This famous stone which has hitherto rested against the north wall of the cathedral, was visited at one time by Conochar MacVessa, high king of Ulster. Canon Maguire, who wrote a commentary on the register of Clogher in 1490, states: "This sacred stone was preserved on the right of the entrance into the church, and traces of the gold with which it has been covered by the worshippers of the idol Ceomeod Celssetach are still visible."

WANTED
Place as cook or helper during harvest - Fern Sargent.

Ghost's Problem

The ghost-writing industry is growing by leaps and bounds. Some of the most successful ghost writers have so much work to do that they are hiring other ghosts to write for them, and you can easily see what that will lead to.—Spokane Spokesman-Review.

At All Ages

The modern baby doesn't have to age much before it wants to go buy.—Arkansas Gazette.

Fate of American Films

What becomes of old American films has been learned. French theatrical caravan shows and British inventors utilize them for low cost or free entertainment.

Knighted—or "Mourned"

Men aren't knighted in America, but it means about the same thing when they get their first invitation to address a graduating class.—Akron Beacon Journal.
