

Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drug store has the genuine, prescriptive product.

Corsica's Good Bandit

Banditry in Corsica does not necessarily mean robbery and murder as for many years the country was practically ruled by a recognized bandit, who permitted plunder and bloodshed only in the case of the vendetta, which was regarded as a sufficient excuse for any kind of outlawry as long as it was confined to the principals and their following. This bandit was Romanetti, whose edicts and wishes were recognized throughout the country although he had no official capacity.

Very Likely

Judge Ben B. Lindsey said at a Denver dinner:
"Some people, when I tell them that marriage ought only to be entered into with deliberation, with thought for the future of the species—well, some people retort that love matches are the only right and proper ones."
"These people set love, or what they call love, too high. They are like the woman—twice divorced, by the way—who quoted in an argument against eugenics:
" 'Tis love that makes the world go round."
" 'Very likely,' said another woman 'for there's no crank like a lover.'"

Current Wit and Humor

EXPLAINING THE MATTER

Judge—The plaintiff says he lent you a milk-pail, which you broke, and he claims damages.

Farmer Jones—There's not a truthful word in what he says. In the first place, he didn't lend me a pail at all. Secondly, the pail was broken when I had it; and thirdly, the pail was whole when I gave it back.—Vancouver Province.

DIDN'T KNOW HER

Teacher—Now, James, what do you know about Polynesia?
Pupil—Polly Neeshur? Don't know nothing, teacher—she don't come to this school.

Knighted

Bill the Bum—Ah, kind lordy, I'm by no means a common tramp; I've had an honor conferred on me that most of the nobles of England would give their all to possess.

Nearsighted Old Lady—Dear me, what was that? Who bestowed such a great honor upon you?
Bill the Bum—One of our great judicial lights, lordy, gave me The Order of the Bath.

What Barbecue Meant

Gwendolyn's boy friend knows she isn't very bright but this one knocked him rather flat.

"I'm opening up a barbecue out on Boston road next week," he told her.
"Gee, that's swell!" she replied.
"But who's going to go way out there to get a shave and haircut?"

Overplayed It

Mrs. Willis—Your husband started out so meek and docile and now he bullies you shockingly.

Mrs. Johns—I know it. It's all my fault. I began by making him do the housework and I always did cringe before the kitchen help.

WIFE DIDN'T CHOOSE

She—I heard Bill was running around with a blonde baby.
He—He's through. His wife didn't choose to let him run.

Ambition

I'd like to play the cymbals, as it always seems to mean a chance to do some reading in the rests that come between.

The Slow Driver

"Why are you in prison, my good man?"
"For driving a car too slowly."
"You mean too quickly."
"No, I mean too slowly. The owner overtook me."

He Didn't Fit

Jane—I hear you divorced your husband. Weren't you happy?
Janet—Oh, yes, but, you see, I needed a Spanish type for the new apartment.

Impetuosity Tamed

"I have been moved to admiration of your torrential flow of eloquence."
"Thanks," said Senator Sorghum. "But I'm a little apprehensive that the torrential flow is going to be harnessed the same as water power."—Washington Star.

The Popular Manner

"How'll you have your rescue?" wirelessed the coast guard.
"Fried," replied the captain of the ship in distress.

Bombay Natives Cling to Old Superstitions

A fierce controversy is raging in Bombay over the municipality's war against malaria.
An expert on the disease was recently reported to have stated that the city would never be free from malaria till the wells in the private compounds were sealed up.
The municipality's efforts to treat the wells wherein the mosquitoes breed has now resulted in strenuous opposition from the orthodox Hindus and Parsees.
The Parsees' demand that the sun's rays should be allowed to reach the water has been met by a proposal to make use of plate glass tops on the covering of the wells.
There are also those, however, who desire that facilities should be provided for the spirits, believed to dwell in the wells, to enter and leave the water.
As a concession brass plates with holes in them no more than one-twentieth of an inch in diameter are to be inserted.—From the Continental Edition of the London Daily Mail.

Bear Wrecked Auto

The Alaska Weekly prints this story from its correspondent at Miller Creek, Alaska: "H. D. Cowden, miner, returning to his parked truck at Glacier creek, saw a bear climb through the rear door. He watched from a thicket and saw the bear take a position on the seat. One huge paw accidentally turned on the ignition and a big stumbling foot pushed the self starter and with a roar the car started down the grade, bear and baggage. The bear took a flying nose dive through the side curtains and the truck came to rest in a willow thicket where it is still a pile of dilapidated wreckage."
