UMATILLA PROJECT FAIR ENLARGED

Hermiston, Sept. 20.

Preparations have been completed for Hermiston's 17th annual Umatilla Project Fair, Oct. 4 and 5.

We have now an interesting feature appearing in the annual Umatilla Project Fair. A substantial reward will be made for exhibiting the three most profitable cows, the profit to be determined by the cow testing association records and the herd books to be submitted for inspection.

The Umatilla County Beekeepers Association is sponsoring a contest for the general exhibits of food cooked with honey, and the live stock division will give special awards for Guernseys. Over \$1500 in cash will be divided among the farmers in the various divisions. Many livestock exhibits have been entered and

all indications point to the most successful year in the history of the fair.

Arrangements have been made with the Field-Clark Flying Service for an airplane and an experienced pilot to be here for the show. The airplane will be equipped to take up passengers at a nominal fee, and a parachute jumper and wing walker will be here to provide some interesting stunts for the crowds.

The local post of the American Legion will be in charge of all concessions, and a Merry go-round will be on the grounds for the amusement of the children. There will be special free shows in the evening, open to the public which will be followed by dancing each evening. The plans call for the repetition of the 49 shows in connection with the dances.

Finger surgery will heal your tonsils instead of removing them. Consult a physician who believes in conserving the natural organs.
