Entered as second class matter at the post office at Ione, Oregon, under act of March 3, 1879.

Friday, Oct. 25, 1929.

## POMONA GRANGE ITEMS

Continued from Pg. 1.

Hawley-Smoat bill.

The business of the evening session included the adoption of several resolutions; first, favoring as committee on the public domain for Oregon, the names endorsed by Baker County Pomona; Messrs. Phillips of Baker, Warner of Pendleton and Jamieson of Prineville. Second; Umatilla Co. Pomona favoring the provision of funds for a much needed courthouse at Pendleton. Third; Thanking Stanfield Grange for their royal hospitality. A bane concert opened the evening program.

The beautiful grange memorial eulogy was read in memory of Warren Cool, of Willows Grange, who passed away on October 11. A drill by the Willows Grange Drill Team composed of the young folks of the grange was much enjoyed.

Greenfield Grange exemplified the Pomona Degree in an impressive manner to a class of 32, 16 being members of Umatilla Pomona and 16 joining Morrow Pomona. Tableaux "Hope" and "P. of H." beauty and dignity to the degree work.

As Greenfield Grange had the largest delegation when the count was made at 2:00 o'clock, the Morrow County Pomona Banner became their charge for the next three months.

All those in attendance from both counties greatly enjoyed the joint session and hope to meet together on a future date.

Those from this vicinity in attendance on the Pomona Grange meeting at Stanfield, Oct. 17, were Mr. and Mrs. Ernest Helker, Donald and Harriet, Mr. and Mrs. Ed. Boshe Louis, Josephine and Henry, Mr. and Mrs. Harry Cool, Mable and Elmer, Peterson, Margaret Crawford, Geneva and Beniah Peetyjohn, John and Veda Eubanks, Mrs. Earl Morgan, Mildred and George and Gladys Brashers, all members of Willow Creek Grange.

Leading Surgeons of the world are now advising you to keep your tonsils by having them restored to natural size and functions. Dr. J. Perry Conder has been doing this for 21 years in Morrow County. [Adv.]

### Treating crippled horse

Usually no attempt is made to cure the broken legs of horses because it is expensive and the value of the horse does not warrant this handling. If a horse is very valuable the leg can be cured by the use of slings, splints etc., by a veterinarian.

### Lives in Manaplan

A Berlin man sees a discarded man-of-war in a dwelling place. The forward part of the fuselage, with windows containing a view in three directions, is utilized as a living and sleeping room. The rear forms the kitchen. Above it rises a chimney that describes a letter "Z" near the rudder.

### Taught People Thrift

While the savings bank idea originated in England and Scotland it took firmer hold here than anywhere. The government handles most of the savings in England and in many of the continental countries.

### No Military Lodges

The grand secretary of the Masonic temple, Washington, D. C., says that American Masonry does not at the present time follow the policy of the Grand lodge of England in permitting organized military lodges to be incorporated within the regiments or in the naval service. During the Civil war one or two lodges were organized within the army following the troops as is the English custom, but these passed out of existence and there are not at the present time any left.

## THE SLAVE OF ALADDIN'S LAMP

might move a palace a thousand miles" said Mr. Berton Braley, the well known author in a recent address.

"But the slaves of Edison's lamp have moved civilization forward a thousand years."

"Where the slave of Aladdin's lamp could keep a horde of gold and jewels before Aladdin's wondering eyes, the slaves of Edison's lamp have created new wealth beyond the wildest dreams of Oriental magnificence."

Had electric light alone been the sole result of Edison's inventions the electrical industry would have justified itself. But it necessitated the invention of a system of generation and distribution, laying the foundation of the light and power industry as we know it today.

These inventions "have moved civilization forward a thousand years."
